Peaches Moving Freely at 80 to 90 Cents a Box—Apple Price Varied

PORTLAND, Ore., Aug. 6 (AP)—Prices on fruit were steady on nearly all commodities in local wholesale markets today.

Deciduous fruits continued to hold the centre of interest. Peaches moved freely around $80 to $90 per box for California Elbertas, other kinds bringing various prices, depending on size and condition. Apricots were plentiful and sold mostly from 65c to $1c per 12-pound box.

Apples sold at all kinds of prices, depending on variety and quality. Cons $1.60 to $2.25. Local yellow transparents ranged downward.

Cabbage, although not plentiful, was in ample supply to meet market requirements and sold from 2 to 2½c per pound.

Supplies of new potatoes were generous and trading was fairly active at $1.50@1.75 per cwt.

Butter and egg markets appeared steady at the opening and trading was active. Receipts were about average and demand absorbed most of the early offerings.

Poultry and country dressed meat prices were unchanged, although the markets were short on ready choice stuff and receipts were generally light. Slight advances in meat prices were considered probable later in the week if receipts showed any further decrease.

Hero Retires

After serving three years in the army, during which time he rescued three people from drowning, Boy, former mascot of the soldiers at Fort Clayton, Panama, has retired to civilian life. Boy pulled a soldier out of the water at Panama for his first rescue; then he got help when another soldier was drowning, and wound up his record by pulling out the small son of the post captain. He's shown here with Miss Victoria Wolfe, his custodian on the steamer from Panama to San Francisco.

"To Be Continued In Our Next"

Just paying for an article and carrying it home, doesn't complete the transaction in our store. An invisible part of your purchase remains to be delivered — Satisfaction. The story of the sale is "continued in our next." Six months—a year later, perhaps—you will know whether Satisfaction or Discontent, was the ending.

That is why we cannot afford to sell "seconds," imperfect goods, or bankrupt stocks. Articles that are cheapened and weakened by substitution, hid away where the buyer cannot detect them, wouldn't make a very good "ending." Quality must have its price—and Quality alone determines whether that price is economical.

Twenty-six years ago we began business in one tiny store. Today we have over 1,000, scattered from coast to coast. Apparently our customers have been satisfied with the "ending" of our merchandise story.
