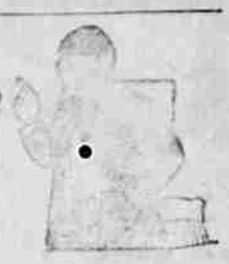
Woman's Power Over Man



Woman's most divine endowment is the power to influence and control the love of man. Without it she is and will always be only a plaything. Her influence is felt in every home, her power is felt in every heart. The woman who is free from weakness and the unusual ailments of her sex is almost omnipotent. But a woman who has lost the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her sociability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

CITY'S BUILDING RECORD FOR 1908 NEARLY $600,000

Building Inspector McFarland Furnishes Some Interesting Figures

HIS RECORDS SHOW A SPLENDID GROWTH

Fifty-six Residences at Present Time Under Construction and Unfinished

Building Inspector McFarland states that during the year 1908 the total cost of buildings erected in Eugene was $582,358. The total cost of the buildings put up since April 1, at which time the office of building inspector was established, was $456,293, and by a careful canvass of the city he figures that the buildings erected before that date cost in the aggregate $126,065, thus making a total of $582,358, as stated.

Principal among the buildings erected before the building inspector began to issue permits were the Southern Pacific depot, costing $21,000, the Central Presbyterian church, of stone, costing $21,000, the Bible University building, of stone, costing $30,000, and the Coleman block, on Willamette street, costing $8,000. During the months of January, February and March Inspector McFarland finds that 15 residences, five brick blocks, two stone structures and two wooden business houses were commenced, although, he states, he might have missed some of the residences, and in that case the total cost for these three months would be greater than he estimates. Inspector McFarland reports that there are at the present time 56 residences under construction, unfinished.

The total cost of the buildings for which permits were issued during December is $28,850. Beginning with April, the permits issued during each month of the year amounted to the following: April, $93,600; May, $27,045; June, $53,095; July, $45,400; August, $56,052; September, $44,325; October, $86,335; November, $21,591; December, $28,850.

December Permits.

Wood-savers and even bakers—this has made the Superior range famous. Chambers Hardware Co.

Folger's Golden Gate Coffee

The aroma-tight can protects it against impurities and deterioration—never sold in bulk.

Your grocer will grind it—better if ground at home—not too fine.

School Children

Often develop weakness in the eyes. Unthinking or foolishly conceited parents won't listen to the wearing of glasses to remedy the trouble. Nothing could be more idiotic for if the child were to be fitted with proper glasses then the trouble would in nine cases out of ten be ctopped—thus avoiding the wearing of glasses in after life which is certain to be necessary if the trouble is neglected. Our fifteen years of experience are at your service.
