PORTLAND, Ore., Nov. 14 (AP) —Except for an advance of one cent in fresh standard grade the egg market was unchanged today. Prices also were steady in butter.

Slight changes are noted in the market price of grapes. Choice Lady Finger grapes have come down to $1.75 to $2, a reduction of 50 cents in some instances. On the other hand, Malga variety is quoted slightly higher at $1.25 to $1.50.

CALIFORNIAN SHOOTS WIFE AND DAUGHTER

SAN JOSE, Cal., Nov. 14 (AP) —Stephen Sparacino, 45, maddened because his wife left him, today shot his wife and daughter, planted four dynamite bombs, three of which failed to explode, and then fled, abandoning an automobile in which more than 100 more sticks of dynamite were found by police.

Mrs. Mary Sparacino, who said she came here with her daughter, Anzie, from Martinez to avoid her husband, said she was awakened to find her husband pointing a shotgun at her bed.

She ran into a closet with her daughter only to fall as Sparacino fired two charges of buckshot through the door, wounding the wife in the arm and seriously wounding the daughter who is expected to die.

KOAC TO BROADCAST

CORVALLIS, Ore., Nov. 14 (AP) —College enthusiasm, which reaches its climax each year in Oregon just before the state grid classic, will be carried to Oregon State college alumni and friends throughout the country tonight from 8 to 9 when homecoming high links is broadcast as the first program over the remodeled college radio station, KOAC. The program will contain short talks by campus notables including Paul J. Schissler, head coach, interspersed with music by student organizations. KOAC has a new wave length of 455 meters at the extreme top of the dial.

Recent tests by the British War Department show that the tank is obsolete. We still have a few sightings here and there in America, however.

Since the largest part of the returns from farm flocks is derived from the sale of lambs, it is important that they be in the best marketable condition. Ram lambs and undocked lambs are discriminated against on the market because they are less well developed and lack a uniform and attractive appearance.

If neither silage nor a root crop is available as a succulent feed for the dairy cow, dried beet pulp soaked with about three times its weight of water makes a satisfactory substitute.
