Stump Acres Earn No Money

UNCLEARED land will "eat its head off" in taxes and in the loss of crops you *could* produce on it. Stumps don't earn anything—they're "squatters" and should be replaced with crops.

The lower cost of clearing land with Pacific Stumping is shown by the increase in the number of ranchers in this neighborhood who are using it today. It shoots, stick for stick, with any standard stumping powder, but you get one-half more sticks for your dollar. Pacific Stumping does the job *right*—more land cleared at less expense. And Pacific Stumping does not freeze or give a headache from handling.

1/2 more per dollar

We can give you complete explosives service. Our stocks include Pacific Stumping and other du Pont dynamites for use on the farm. Let us figure on your requirements.

PLEASANT HOME

The Ladies Aid of the Methodist church will hold an apron sale at the church on Saturday evening, April 26. A good program will be given and refreshments provided.

No Monkeying Here.

"If you can't do it any other way, try electricity," is the latest slogan, and it is getting to be a pretty safe slogan to follow.

For example, the monkeys in Lincoln Park zoo, in Oklahoma, have provided a delicate problem for the zoo keepers for some time, but now, a happy solution has been reached. They are to be kept warm by electric heat through the installation of a battery of electric heaters in the cages. It is the best and safest heat for this purpose because the monkeys can't monkey with it.—The Open Window.

Helps any case gas on the stomach in TEN minutes.—Gresham Drug Company—Adv.
