FATIGUE MAY CAUSE COMMON COLD

System is More Susceptible to Infection When One is Exhausted

Nearly every cold that is suffered got its start when the afflicted was "tired out." A fatigued person is easily chilled, and when this condition occurs the sneeze and sore throat make their appearance.

Since most every one experiences fatigue in mid or late afternoon, it is wise to overcome this condition by eating or drinking something sweet. Candy, cookies, sweetened beverages and ice cream are quickly digested, and the energy in the sugar is ready at once to restore vigor. For children, a slice of bread and butter sprinkled with sugar is an appropriate "pick-up."

In these winter days, the importance of diet in relation to the resistance of the system should not be overlooked. The person who eats a wide variety of wholesome food fortifies himself against disease. Good food promotes good health. The Sugar Institute.

Disabled Japanese Premeir Resigns

TOKYO, April 14 (AP)—Disabled as the result of a shot fired last November 14 by a young assassin, Yuko Hamaguchi resigned yesterday as premier of Japan, and presented the resignations of his entire cabinet.

The appointment of Reijiro Wakatsuki, former premier, as successor to Hamaguchi was regarded as a foregone conclusion, and it was expected that Wakatsuki would retain most of the Hamaguchi cabinet.

The Hamaguchi administration, which lasted less than two years, weathered many storms growing out of its acceptance of the London naval treaty and the attempt upon the premier's life was attributed to dissatisfaction among patriotic extremists with Japan's position regarding the arms limitation agreement.

the commission. The meeting was later thrown open to the public at which time these actions were announced.

10-Year Program Endorsed

A ten-year program involving the expenditure of $5,000,000 for outdoor improvement in game activities was also endorsed by the commission, and the program will be at least started by the present group, Marshall Dana announced. The program procedure will depend upon a survey which is to be made in the near future. The objective is to "make Oregon famous for fun."

The dismissal of the entire staff was taken as a means to reorganize the entire department rather than to make a clean sweep. Rehiring and appointment of new members will depend upon the interpretation of the attorney general of the new state game code and the bearing the new police bill will have on the law enforcement phase of the commission.

Joint Meetings Planned

Joint meetings of the game and fish commissions will be held about once a month, while sportsmen and representatives of sportsmen's groups will be invited to sit in at stated intervals, Dana announced. Earl Fry, Seattle, of the game preserve development department of the Dupont company appeared before the commission in the interests of water fowl, Chris Kowitz, of the Marion county game protective association, requested consideration of holding pens for Chinese pheasants; Fred Wegner, of the Multnomah anglers club pledged the commission his organization's support, and E.
