PACIFIC COAST NEWS.

THE WEEK'S NEWS AS PICKED FROM THE DISPATCHES.

Boy Drowned With Aid all Around. Progress of the Valley Road—Nevada Embezzler Sentenced to Five Years' Imprisonment.

Fire recently destroyed five buildings at Chino, Cal., causing a loss of $4000.

The new foundry of the Standard Iron Works, Los Angeles, Cal., is completed. A ten-ton crane has been installed.

An effort is on foot to sell the Bear Valley, Cal., irrigating plant to farmers of Redlands, Alessandro and Perris. It is valued at 525,000.

Baker City, Or., will hold a special election this month to decide upon bonding the city for $124,000 for a gravity water system, or $16,000 to sink wells.

W. D. Hofius & company of Seattle, Wash., were the purchasers of the plant of the Port Townsend Wire and Nail company, recently sold at receiver's sale for $5000.

The Pacific Sheet Metal Works at Fairhaven, Wash., are now making 150,000 cans per day. They have 2,500,000 salmon cans ready for shipment to the canneries.

Thirty-one carloads of fruit were shipped east from Sacramento, Cal., last Wednesday. The shipments to date amount to 788 cars, 130 more than to the same date last season.

Logan Stair, a 14-year-old boy, was drowned in a tank at Los Angeles. A dozen comrades were in the tank at the time, but they had not the slightest idea of young Stair's danger and left him to drown.

Charles Turner, aged 19, was shot and killed near Eugene, Or., by T. M. McGrath, a farmer, who is 65 years of age, who became enraged at Turner's attentions to his wife.

C. S. Dunphey and associates propose to tap Malheur lake in Harney county, Or., by a canal 45 miles long for irrigation purposes. The arid land to be benefitted is estimated to comprise 65,000 acres.

The Thermal Belt Water company at Santa Paula, Cal., at a cost of $13,000, has installed a pumping plant for supplying irrigation water to farms and orchards. The pump has a capacity of 3000 gallons per minute.

A fire recently destroyed the schoolhouse, school library and apparatus at Hydesville, Humboldt county. The loss is about $2500.

A fierce forest fire is raging at Sugar Pine point, in the vicinity of McKinney's, lake Tahoe. The area burned extends from Rubicon, several miles back in the mountain, and down to the lake shore. A vast amount of valuable timber has been destroyed.

Jesse J. Anderson while riding a bicycle at Sacramento, was run over by a street car, receiving injuries which, it is feared, will prove fatal.

A movement has started at San Diego, Cal., to complete the Pamo dam and water works, to furnish water for the Linda Vista irrigation district. The work will cost over $800,000, and will open up 40,000 acres of fertile land.

Louis Guggenheim, arrested at Virginia, Nev., for embezzling the funds of local fraternal societies and indicted on that charge by the grand jury, pleaded guilty and was sentenced to five years in the state prison at Carson.

The Puento Oil company is building a storage tank near San Bernardino, Cal., that is 80 feet in diameter with a capacity of 30,000 gallons. It will be used for a reserve supply of the residuum from the stills, which is used for fuel by the sugar company. The refinery is turning out 60,000 gallons of refined illuminating oil, 30,000 gallons of gasoline and 10,000 gallons of distillate per month.

The litigation over the affairs of the Pacific Railway company, a traction corporation at Los Angeles, Cal., came to an end in the circuit court at Chicago, when Judge Tule entered a decree declaring the stockholders liable to the extent of their several holdings at the rate of $65 per share.

The six-year-old son of Benjamin Lloyd was drowned in a creek at Ben Lamond near Santa Cruz, recently. He was with some other boys in a boat, when the latter began to rock the craft. Lloyd fell out. He was unable to help himself, and his companions could not save him.

The San Francisco and San Joaquin Valley railroad is filling in the three blocks on Taylor street, Stockton, the site on which it will build its passenger and freight depots. Spurs have been run out from the main track and about 100 carloads of gravel are being brought in daily from the Stanislaus pit. Rails, angle bars, spikes and ties by the bargeload are being received and stored in the material yards of the company to await track laying on the Point Richmond extension. Grading and embankment building are being rushed as fast as possible on the line between Stockton and the bay. Dredgers are working in the swamp, and seven miles of this style of roadbed will be completed before the big tunnel in the Contra Costa hills is finished. Railroad building across the marshes is slow work, but the dryness this season is aiding the work on the new road considerably.

VOTE OF THANKS.

The Senate Recognizes the Bravery of Sailors.

WASHINGTON.—A precedent that will be historic was established by the senate at a recent session. For probably the first time in the history of the senate, a resolution was adopted tendering the thanks of congress to common seamen, specifically naming them in the resolution. The resolution elicited several patriotic speeches, in which the private soldiers of the army and the common sailors of the navy were glowingly eulogized.

The resolutions recommended by the president were adopted tendering thanks of congress to Naval Constructor Hobson and the other heroes of the Merrimac, and to Lieutenant F. H. Newcomb, commander of the revenue cutter Hudson for his gallant rescue of the Winslow and her crew off Cardenas; and retiring on full pay Captain Hodgson of the McCulloch for distinguished services at Manila.

EXTENDING THE BLOCKADE.

The President Gives Notice of Further Blockading.

WASHINGTON.—By proclamation issued one day last week, the president gave notice of the intention of the government to assume the formidable task of blockading about 500 miles of Cuban coast line in addition to the sections already blockaded. This increases the extent of the blockade fully four-fold, it having been continued heretofore to a stretch of a little more than 100 miles on the north and the single port of Cienfuegos on the south coast of the island. The demands upon the navy will not be nearly so heavy in proportion to the territory to be covered as in the case of the initial blockade for the reason that the new blockaded coast line lies entirely within the great bight on the south Cuban coast, in which the water is generally very shallow, and the ports are few into which a vessel of any draft could enter. The most important of these ports is Manzanillo, Trinidad and Tunas.

SHORT WAR NOTES.

Brief Items Concerning the Latest Developments of the Struggle.

Some large California and coast contracts have resulted from the war measures, mostly ships, clothing and food supplies, as in other parts of the country. The Armours of Kansas City, Mo., have one order for 3,250,000 pounds of corned beef for Tampa, Fla.

The steamer Antonio Lopez of the Spanish Transatlantic line recently left Spain secretly with a cargo of big guns and other arms and ammunition and provisions for Porto Rico. She arrived off San Juan Monday last, but was sighted by the American auxiliary cruisers St. Louis and St. Paul, which gave chase. The Lopez got away, but her captain, fearing that more American war ships were near, ran his vessel ashore, the shock causing one of her boilers to explode.

The Spanish war ships Isabella II and Concha fought the St. Louis and St. Paul several hours before retiring. They went to Punta Salinas, where the Lopez had been beached, to protect the landing of the stranded vessel's cargo. Troops were also sent from San Juan to assist in getting the cargo ashore.

Russia Friendly.

ST. PETERSBURG.—In view of the continued improvement of the military position of the United States the newspapers here are changing their tone to friendship for America and now speak with contemptuous pity for Spain, the reason being, it is alleged, the growing fear of a possible Angle-American alliance. The Russian press, however, does not think such an alliance is probable, and predicts that the victory of the United States over Spain will lead the former into a colonial policy, which will eventually result in a conflict with Great Britain.

NEWS OF THE STATE.

Baker City merchants are talking of organizing a commercial club.

H. J. Miller, of Aurora, has made a few contracts to sell 1898 hops at 10 cents.

The grain dealers in Sherman County are consolidating their interests by forming one corporation.

The Dallas woolen mills will be started soon on full time by men having ample capital to push the business.

About $55,000 worth of wool has been stored in Baker City warehouses. The total will reach $80,000 before the close of the season.

The work on the steel structure of the sugar factory at La Grande has been completed, and a great deal of the heavy machinery is in place.

Wayne Osborn, of Eugene, was appointed last Monday by Congressman Tongue to the naval cadetship at Annapolis. He is sixteen years old.

English sparrows are numerous in Marshfield. No one seems to know how they happened to get there. They are multiplying at a wonderful rate.

The Fourth was celebrated near Astoria by setting fire to a mountain covered with dry dead fir trees. The fire could be seen from all parts of Clatsop County.

Experts who have visited the fields of the Pierce Farming Company, at La Grande, say they have a stand of beets that will harvest as much as 25 tons per acre in some places.

The amount of coin put into circulation in Grant County by sheep and cattle buyers this year is estimated at $100,000, which many consider a conservative statement.

There appears to be a potato famine in Canyon City, the farmers having missed their calculations slightly in reckoning the amount necessary to supply the market for the year.

The hop yards near Brownsville are coming out in pretty fair shape and prospects are good for an average crop. Lice have made their appearance, but it is believed that the warm weather will kill them.

Nearly 500 carloads of sheep will be shipped out of Huntington within the next few days. 313 cars having already gone. They are being shipped to Montpelier and from there they will be trailed to Nebraska.

T. N. Segar has over forty hands at work at the cannery building in Eugene packing cherries for shipment east. He started the first carload Saturday. He is paying 2 cents per pound for Royal Annes.

There will be three crops of alfalfa at Milton. The first and second crops have already been harvested. Much of this valuable hay has been coming to Milton recently. It sells at $6 a ton delivered or $4 in the field.

A band of 200 mules were driven through Arlington Wednesday on the way to Seattle, where they will be sold for use in Alaska. E. Bailey, of Utah, is the owner of the band, which was but a small portion of his entire holdings.

Farmers of Grant County are jubilant over the prospects for large crops. Six weeks ago it was firmly believed that not enough hay would be harvested to feed stock the coming winter. But good rains have improved the hay and grain outlook, and farmers generally predict the largest yield ever harvested in the county.

While tearing down her residence a few weeks ago, Mrs. J. S. Luckey, of Eugene, found a $5 bill wadded up in a small space. It looked as if it had been exposed to at least 20 winters of rain. It was taken to the First National bank, and the clerks were able to make out a few words on the margin—"five dollars." It was sent to the treasury department, and on Wednesday of last week the bank received for Mrs. Luckey a bright, new crisp $5 silver note in return therefor.

W. E. Frank, of Sioux City, Ia., has just purchased 200 yearling steers in northern Grant County for shipment east. The price paid was $18 per head. Other buyers are in the field buying both sheep and cattle. Thirty horses were started for the Pendleton and Walla Walla wheat belt Wednesday, where the owners expect to market them.

Crops in the mountains of Lane County never were more promising. The hay crop, though badly lodged by the June rains, will be the largest ever harvested. Apples, pears, plums and prune trees are fully laden with fruit. Peaches are scarce on the trees. Though last year's yield of small fruit was immense, this year's will be greater.

Doings of the Circut Court.

A J Hamlin vs Rosanna Wilson, John A Carlile and Peter Applegate, substitute for W E Anderson as county recorder; order of substitution; ordered that Peter Applegate be substituted in place of W E Anderson, as county recorder.

James Gaines vs Spencer Childers et al; plaintiff granted until September 1st to file a reply to the defendant's answer.

Ordered that Chas Schultz be allowed $99 for services as court bailiff.

Will P Allen, Wm Ireland, Jasper L Lindley, J H Lindley, E K Hanna and A N Soliss, administrator of Walter L Hanna, vs John Broad and A W Sturgis; taken under advisement.

A J Hamlin vs Rosanna Wilson; order overruling motion.

A Andrews vs J W Lawton et al; confirmation of sheriff's sale; sale confirmed.

The stars and stripes are doing honorable service in the public schools of Chicago. Little celluloid flags are offered to the pupils at five cents each. The proceeds are already sufficient to maintain three vacation schools, which for six weeks of the summer brings unmixed happiness and no little profit to the children of the very poor. Long may our flag wave over not merely the land of the free and the home of the brave, but over a people whose rich come into kindly contact with the poor, and where the learned and fortunate share their acquirements with the ignorant and the forlorn.

Mining Locations.

John F Atteberry located May 24 a quartz claim in Forest creek district.

B Roberts located June 16 a claim in Forest creek district.

W Frield located May 25 forty acres in Rogue river section.

Thos J Hall located January 1 a claim in upper Grave creek district.

J E Fousts located June 20 a claim in Sampson district.

In Probate Court.

In the matter of the last will and testament of Elizabeth Miller; order admitting will to probate and James C Turnbridge appointed executor and E L Hays, J W Bigelow and F M Thompson, appraisers.

Estate of Mary Fisher; order admitting will to probate and Wm H Peninger appointed executor without bond and James McDonough, C W Kahler and F W Sifers appraisers.

A Child Enjoys

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or bilious, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.

SUMMONS.

In the Circuit Court of the State of Oregon, for the County of Jackson.

Frances Cora Childers, Plaintiff,
vs.
Horace E. Childers, Defendant.

To Horace E. Childers, the above-named defendant:

IN the name of the State of Oregon: You are hereby required to appear and answer the complaint of the above named plaintiff in the above entitled Court, now on file with the Clerk of said Court, within ten days from the date of the service of this Summons upon you, if served in Jackson County, Oregon; but if served in any other county in the State of Oregon, then within twenty days from the date of the service of this Summons upon you; or if served on you out of the State of Oregon or by publication then by the first day of the ensuing term of the Circuit Court for Jackson County, Oregon, to wit: Monday, the 12th day of September, 1898, and you are hereby notified that if you fail to appear and answer said complaint as hereby required, the plaintiff will apply to the court for the relief demanded in the complaint now on file in this case viz: For a decree dissolving the marriage contract between plaintiff and defendant and that the same be annulled and held for naught, and that plaintiff be permitted to resume the name of Frances Cora Jones, and for costs and disbursements.

This summons is published in the MEDFORD MAIL for six consecutive weeks by order of H. K. Hanna, one of the Judges of the First Judicial District, made in open court at Jacksonville, Oregon, July 1st, 1898.

NEURALGIA.

A Disease of the Blood Resulting from some Constitutional Taint Inherited or Acquired—Caused by Impoverished Blood, which is Always Shown by the Afflicted One's Pallor and Emaciation—How it May be Cured.

From the Graphic, Rushville, Ind.

Miss Pearl Wood, a popular young lady of Arlington, Indiana. Two years ago Miss Wood became seriously afflicted with facial neuralgia and was not relieved of her suffering until about eight months ago.

She says, "I had fairly good health until two years ago when the facial neuralgia developed. It started with occasional pains in my jaws and I did not know what the trouble was. I went to a dentist, thinking my teeth needed treating, but the dentist said such was not the case as it was facial neuralgia. Our physician said the same thing and he gave me medicine which relieved the pain for awhile.

"A few weeks later I woke up one night with a fearful pain in my head. I tried different remedies, but could not get rid of the awful pain. I managed to pull through, however, till morning, when the doctor was sent for. He said it was another attack of the trouble and I was sure to have a serious time of it. His prophesy proved true. I suffered severely from this disease for many weeks. The pains often came in the night and were so severe that it was impossible to sleep.

We tried a different doctor, but he did me no good. I had read articles in the newspapers concerning Dr. Williams' Pink Pills for Pale People, and although I had never read of a cure of any trouble similar to mine through them, somehow I felt that the pills might benefit me. Some of our neighbors had used them with successful results, and I decided to try them. I sent to Rushville for half a dozen boxes. I concluded if they were worth trying, they were worth a thorough trial; but all the medicine was never used.

"By the time I had finished the second box I found I was growing better. I don't think I was ever more happy in my life than over the fact I was getting well. After taking the third box, the pain which had made life a misery, had left me, and when I had finished the fifth box I was well."

Neuralgia is the result of some constitutional taint which has been inherited or acquired. It is the direct result of an impoverished condition of the blood which is always shown by the afflicted one's pallor and emaciation. Any part of the body which has sensitive nerves may become affected.

Among the many forms of this disease are headache, nervousness, paralysis, apoplexy and locomotor ataxia. Some of these were considered incurable until Dr. Williams' Pink Pills for Pale People were formulated. To-day thousands testify to having been cured of such diseases by these pills.

No discovery of modern times has proved such a boon to women as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves invigorating the body, regulating the functions, they restore the strength and health to the exhausted woman when every effort of the physician proves unavailing.

For the growing girl they are of the utmost benefit, for the mother indispensable, for every woman invaluable. Dr. Williams' Pink Pills are recognized everywhere as a specific for diseases of the blood and nerves, and have proved their efficacy in thousands of cases. They are one of the greatest blessings ever bestowed upon mankind.
