Bend Leaguers to Play Cottage Grove Team

Sunday's Tilt Promises Snappy Action: Locals Add New Players.

Baseball fans of this city will be able to see one of the fastest stepping teams of the Willamette Valley baseball league in action here Sunday afternoon when the Bend leaguers play the Cottage Grove nine on Delbert Kelly field. Followers of the game who like to see snappy action will get their fill Sunday for Bend probably has the best team in the league and last Sunday handed a 11-to-2 beating to Eugene, which was in second place and is considered a strong team.

The Cottage Grove nine, which has been playing in hard luck all season after winning its first start, will be strengthened by the addition of Charlie Orr of Gold Hill as catcher, Brauner as shortstop, Gordon Ridings at third base and the prospect of a new outfielder or two. Orr caught for Ashland last season and made a good record there. He handles himself well behind the bat and should prove a valuable addition.

Brauner at short tried out with the team in the Albany game two weeks ago and made a good showing. He handled many chances with only one bobble and was credited with one putout and eight assists. Gordon Ridings, University of Oregon star, will cover third in Sunday's game and his big bat should help the locals.

Earl Hill, manager and first baseman of the Cottage Grove team, has not decided who will start the game on the mound. Hank Hubbell, southpaw, has been doing most of the pitching this season and may get the call. Fans may get a chance to see a new right hander in action. Elmer Cooper, who pitched for Hill in a California league several years ago, is ready to try to stop the heavy hitters on the Bend team.

The locals are holding two practices this week in preparation for the Bend game. Bend scored a win over the Cottage Grove nine in a game a month ago at Bend.

The game with Albany, scheduled for last Sunday, was called off by rain.

UNUSUAL SPECIES OWL SHOWN HERE TUESDAY

An owl, in the possession of L. O. Griffith, a traveling man en route home from southern Oregon to his headquarters in Portland, attracted much attention in this city Tuesday noon. The owl was caught at Roseburg. It had taken over an old building, said to have been used at one time for a jail, as his home. In wrecking the building workmen discovered and captured the bird. Mr. Griffith, who got the bird from the workmen, was attracted to it by its beautiful plumage and its friendliness. It is of a species seldom found in Oregon, known as the "monkey owl." It is about the size of the average barn owl common in this section. The bird responded to domestic conditions readily and it is likely to win a home in the Portland bird collection.
