INCOME TAX PAYERS WARNED OF DEADLINE

Official advice to federal income taxpayers in Lane county was issued Monday by Arthur W. Lamka, deputy collector of internal revenue, who requested that taxpayers avoid the last minute rush and pay their taxes as soon as possible.

March 15 is the deadline for income taxpayers to pay up their accounts with the federal government, thus indicating the necessity of clearing the tax paying problem immediately.

Mr. Lamka stated that he would be in his Eugene office in order to aid taxpayers in solving their problems in making out the income tax forms, and to provide information about the law. Everything possible will be done to aid citizens in filing their 1928 income tax returns, stated Mr. Lamka, but they should endeavor to do this early and avoid the usual last minute rush.

The deputy collector returned Monday after making a trip in the district on internal revenue business.

Glenn E. McCormick, deputy, was here Monday to help Cottage Grove residents with their income tax reports.

Publicity Plan Talked For Western Oregon

C. A. Bartell Named on Committee to Represent County Chamber at Meet.

Proposed organization of western Oregon communities for the purpose of advertising in a national way the advantages of residence and recreation in these districts was discussed at the meeting of the Lane county chamber of commerce in Eugene last Thursday night. C. A. Bartell, C. A. Stevens, Ray Trask, F. E. Mendenhall and Martin H. Anderson were the delegates from the local chamber. Delegates were present from the chambers of Corvallis, Salem and Albany and plans were made for another meeting to be held at Salem this Thursday.

A committee composed of C. A. Bartell of this city, Carl G. Washburne and Louis Borde, secretary of the Eugene realty board, and T. J. Flippin, secretary of the Eugene chamber, was named to represent the Lane chamber at the Salem meeting.

The county chamber in its program of activities for the coming year will support a movement for an increased planting of fish in the McKenzie and Willamette rivers and tributaries. A committee composed of James Seavey, Martin Anderson of this city and W. J. Adams was appointed to make a study of this project and report later.

The plan for formation of a valley shipping district including the dredging of the Willamette river for navigation purposes was also discussed. It was proposed to have a group representing the Lane county chamber members attend the meeting at Portland soon when this plan will be taken up.

Leo R. Merrick, secretary of the Astoria chamber of commerce, spoke at the meeting on the proposed toll bridge across the Columbia at Astoria. The Astoria chamber is seeking support for this project among the other chambers of the state. No action was taken by the county chamber as this matter is for each member chamber to decide.

Representatives were present at the county chamber session from Springfield, Junction City, Eugene and Cottage Grove. More than 50 were in attendance at the dinner and meeting held at the Osburn hotel.

Good Headway Made On Fill.

Good headway is being made on the fill for the west approach to the state highway over the Willamette at Springfield, according to A. C. Mathews, the contractor. Mr. Mathews is getting river gravel for the fill from the east side of the Willamette. Five teams are being used in the work and more will be put on later, says Mr. Mathews.

Dog Called Unclean by Biblical Writers

Many people have a decided prejudice against selling dogs. Some go so far as to regard the sale of a dog as positively sinful. One elderly woman, says the Pathfinder Magazine, severely condemned a man engaged in the business of raising shepherd dogs for the market. She branded his business as sinful and protested against her church accepting contributions of his "tainted" money.

The origin of this prejudice is not known for certain. It may be based on the old Hebraic Scriptural teachings. Deuteronomy 23: 18 says in part: "Thou shalt not bring . . . the price of a dog into the house o. the Lord thy God for any vow." Many commentators, accepting "dog" here in the literal sense, state that Moses declared dogs unclean and prohibited traffic in them.

Others take a different view of the passage. They say that "dog" here does not refer to the animal, but to the person who has prostituted himself by committing any abominable action. This opinion receives some confirmation from the context, especially the preceding verse. In Palestine the dog was looked upon with loathing and aversion, as filthy and unclean. This animal is mentioned in the Bible more than forty times and, with few exceptions, it is mentioned with contempt, to remark either its voracious instincts, its fierceness or its loathsomeness.

Motor cars are almost as common in the larger cities of China today as jinrickshas used to be. In Canton, Peking, Hongkong and Shanghai there are taxicab services, and most of the mandarins have their own cars. Thousands of American cars have been sold in China during the past few years.

1 Silent timing chain—For quiet, smooth operation and long life, an adjustable silent timing chain drives the camshaft and auxiliary shaft of the new Superior Whippet.

2 Full force-feed lubrication—The heavy, rugged crankshaft of the new Superior Whippet is drilled for full force-feed lubrication.

3 Aluminum alloy invar steel strut pistons—This design prevents piston distortion and assures faster pick-up, greater speed and power, smoother operation and longer life.

4 Big four-wheel brakes—Mechanical type brakes, positive and quick-acting, afford maximum driving safety.

5 Snubbers and oversize balloon tires—These features, together with increased wheelbase and longer springs both front and rear, give exceptional riding comfort.

6 Mono-control windshield—The windshield can be quickly and easily wound open or shut with one hand, even while the car is running.

7 "Finger-Tip Control"—A single button, in the center of the steering wheel, starts the motor, operates the lights and sounds the horn. Aside from its great convenience, this fundamental improvement is also an important safety factor, as you can keep your foot always on the brake when starting or re-starting on a hill.
