Few Dimes Result Odd Garden

An unusual garden is that of the Carl Gimple family of the Spencer Creek community, near Eugene. Gerkins, lemon cucumbers, Savory cabbage, Danish ball head cabbage, red peppers, garden huckleberries, sprouting and heading broccoli, vine peaches, dewberries, celery, are some of the late vegetables and fruits noted in this well cultivated garden which came about because Mrs. Gimple gave four of her children a few dimes for garden money. The youngsters studied the seed catalog long and earnestly, according to Gertrude Skow, county home demonstration agent, and have shown much interest and skill in caring for this garden. Miss Skow has enrolled Mrs. Gimple in the Lane county year-round garden project.

John Cox, 40, is charged with the murder of his 28-year-old wife, because she ate too much of fried chicken set before guests at the Cox home, near Greenwood, N. C.
