Strictly Pure Linseed Oil for Medicinal Purposes

Raw linseed oil is especially valuable as a laxative for horses and stock and for use in the making of Carron Oil, indicated for recent scalds and burns. But much of the linseed oil of commerce is adulterated and unfit for medicinal use.

SHERWIN-WILLIAMS MEDICINAL LINSEED OIL

is made expressly for medicinal purposes and is the purest and best that can be made. It is manufactured from the choicest Northwestern flaxseed, cleaned and recleaned. The most careful and sterile conditions prevail in the mill through every stage of its manufacture.

We sell S-W Medicinal Linseed Oil in pints and quarts. It is ready for use and the directions are on every bottle.

LAND OF SPORTS AND SCENERY

Klamath County's Lakes and Streams Are Alive With Trout and Water Fowl While the Mountains Abound With Deer, Bear and Other Big Game

The Klamath region is destined to become the mecca of the Pacific Coast lover of outdoor sports and will be visited annually by thousands of tourists. Its chain of lakes, mountain streams and rivers are matchless among waters of the United States for trout fishing and unsurpassed for water fowl that occupy the marshes as hatching grounds. Waters of the lakes and rivers abound with the best species of trout and other game fish. In the forests of the mountains are found many species of wild game and fowl.

The basin is environed by snow-capped peaks of the Cascade Range, and to the southwest, at a distance of about seventy miles, Mount Shasta the northernmost peak of the Sierras, rears its white crest to an altitude of 14,440 feet. Mount McLaughlin (Mount Pitt) is the highest of the eminences to the north and west, being about 8,000 feet. There is no more attractive steamboat trip on the entire Pacific Coast than that on Upper Klamath Lake with an almost straight-away course of forty miles, with a variety of wealth of color in the bordering shoreland and picturesque islands. To the photographer, amateur or professional, appreciative of the beautiful in nature, the region offers boundless opportunity.

Crater Lake, with its National Park reservation, is reached best via Klamath Falls, and is numbered among the seven wonders of the world. This body of water is some twenty square miles in extent and lies in the crater of an extinct volcano with walls 2000 feet high surrounding it. Sounding snow the water of this lake to be over 2000 feet in depth. The mountain in which the lake is situated rises some 8000 feet above sea level. The lake was first discovered in 1862, and for a long time was called "Lake Majesty," until the more appropriate name it now bears was applied to it. This is one of the places impossible to picture with pen or brush.
