Two Remarkable Cures.

Reed Caughell and wife returned from Bandon Friday, where the former had been undergoing treatment for his health. Mr. Caughell returned apparently in the best of health, and his case is little short of the miraculous. When he went to Bandon some two weeks ago he was a chronic sufferer with stomach trouble and his ailment had reached an acute stage where doctors said that an operation for appendicitis was necessary. Being told by a friend of a practitioner in Bandon who had made many cures, where operations seemed imperative, by a magnetic treatment, Mr. Caughell went to him for an examination. Without asking any questions the Dr. told him where his pains were and what his trouble was, and undertook to cure him. Under his treatment Mr. Caughell gained 15 lbs. a day, and returned on his way to his home at Gold Beach looking well and feeling well and with his organs performing their natural functions without the stimulation of medicine—something they had refused to do for months. This case is something parallel to that of Louis Marsh, who was given up to die by attending physicians, when his case was turned over to a Christian Science practitioner. The first night after the change the young man slept his first quiet sleep in weeks and awoke in the morning hungry. From that time on his improvement was marked and after taking away from 180 to 200 pounds of his flesh, he has gained back all he lost and more besides.

Mr. Editor:

At the annual editorial convention a resolution was adopted, which I see the Gazette-Times copies, which it is in big type so that everyone may see it, and seeing, read, marking, learning and inwardly digesting, and we trust that after reading they will act accordingly:

"To save an editor from starvation, take a newspaper and pay him for it promptly. To save him from despair, read every item of news of which you can get him. To save him from profanity, write your correspondence plainly on one side of the sheet and send it in as soon as possible. To save him from mistakes, bury him—dead editors are the only ones who never make mistakes."
