US Chamber Urges End For Curbs

WASHINGTON (AP) — The U.S. Chamber of Commerce urged Congress Wednesday to end wage and price controls by June 30.

It also suggested rent controls be wiped out since they have ceased to operate except in a few localities.

Clem D. Johnston of Roanoke, Va., director and chairman of the chamber's policy committee, told the Senate Banking Committee other provisions of the Defense Production Act should not be extended beyond March 1, 1953.

Inflation, Johnston said, should be curbed by credit control, taxation, savings and monetary and fiscal policies.

The latter, he added, should include reductions in federal spending and control of credit expansion by the Federal Reserve Board instead of by the Treasury.

In other testimony, an official of Safeway Stores Inc., charged that the "record of the administration with regard to the prediction of economic events to come is not good."

Milton L. Selby, Safeway's secretary-treasurer, told the committee that the administration "has asked power to control inflation on several occasions when the situation facing the nation was a deflationary one."

Speaking for the National Association of Food Chains, Selby said grocers have been "seriously hurt" by price controls and by "completely inadequate protest and appeal machinery and by maladministration of the law by OPS."

US May Get Spanish Bases

WASHINGTON (AP) — Secretary of State Acheson said Wednesday negotiations will start with the Franco government soon for the use of military bases in Spain.

The U.S. is seeking the use of both air and naval bases.

Acheson told a news conference that the negotiations will involve these bases and also "the use of the 100 million dollars already voted by the Congress for aid to Spain."

The secretary announced formation of a four-member group of military advisers to assist newly-appointed ambassador Lincoln MacVeagh.

He said talks with Franco will start immediately after MacVeagh arrives in Madrid.

He Took His Grog Seriously

SANTA MONICA, Calif. (AP) — Millionaire Turfman Lindsay C. Howard was so serious about his drinking he sometimes dressed for it—in a metal horned helmet and a chain armor coat—according to evidence introduced at his wife's divorce trail.

The evidence was in the form of photographs showing Howard in the costume of the Vikings, a drinking society whose motto is "A Viking can always drink one more."

Mrs. Judith Barrett Howard charges extreme cruelty and excessive drinking in her complaint. She asks $10,000 monthly alimony and child support and a share of community property.
