THURSDAY - August 20 1903

The great and All Mighty Hitchcock, who sits in the chair of the Interior Department through and by the grace of President Roosevelt, is liable to swoop down upon the horde of people living in Oregon at any time and place the remainder of the state in a reserve. Hitchcock pays us particular attention, and has for some time past; in fact, ever since he learned one Binger Hermann made his home with us, he has taken every opportunity to hurt our state, and when he found out the people stayed with Hermann and his policy he has been racking his brain to get even, and he has done it with a vengence. Hitchcock according to his actions cares about as much for Oregon and her development as a heathen does about Sunday. Roosevelt, if he cares for the good wishes of our people and wants to see our state prosper, should place the toe of his shoe to the particular position of Hitchcock's——— which he uses when he sits in a chair, putting about two hundred pounds of force behind that toe and let it go, and the result would be applauded by the people. The country can get along without Hitchcock's assistance.

The Portland public school board has decided against employing married women as teachers. The family is being boycotted on every hand. Babies are not welcome at social functions, therefore many mothers are ostracized. Children are not welcome at many of the "swell" hotels and in every city are found men who will not rent a dwelling to a family with children. Now comes this last slap of the Portland school board. It is a travesty on good judgment and an insult to the noblest instincts of humanity. Boycott the family and you destroy the homes of the country and convert the race into a horde of boarding house cranks and dyspeptics. Bar the married woman out of any of the callings and you destroy the very basis of free institutions. The more honest, self-supporting married women, the better for the poor men.—East Oregonian.

Of all liars, that Josephine county man should have the medal He claims that a fir tree on his timber claim has a petrified top while the lower part of the tree is alive and green.—Eugene Guard. That's nothing. An instance was this week reported in Clackamas county of a tree that burned for eleven consecutive months before it fell to the ground.—Oregon City Enterprise. Pshaw, you fellows know nothing about timber. Come over to Central Oregon and we will show you thousands of acres of sage brush that our dear Hitchcock has placed in a reserve that in a half dozen years will grow into trees that will produce diamonds on every twig. Our sage brush is wonderfully productive, and under the stimulating effects of Hitchcock will become marvelous.

Corbett and Jefferies have at last met and Corbett has again been defeated. The sporting world will we suppose have a little rest from these two bruisers, and our daily papers give us something other than what they are doing. The social, financial and business interests of this country could get along without such fellows and never be any the worse off.

Today the first of the series of the cup races will be started by the Defender and Shamrock the III. Two continents will eagerly and anxiously await the outcome. May the Defender win and the cup which so many years has been with us still remain, proving the superiority of American sailors and American workmen.

Hitchcock Might have had Inducements Offered Him.

PRINEVILLE, ORE. Aug. 18, '03.

EDITOR REVIEW:—

Ancent your article of last week in regard to the withdrawal of a vast region of pomice sand country, ostensibly for a water shed reservoir, part of which covers a portion of Crook county, part in Klamath county, part in Lake county and "all south and east," I suppose that means to Patagonia on the south and Labrador on the east.

If the reserve making powers will declare the people who are living in this vast region "wards" of the government, appoint an agent to look after them, grant their annuities and other necessities of "wards", it will give another school of pets a choice to make "lots of money out of the government."

It surely is a continual sound of pleasure, of the scheming combines, to loot the government, to retard settlement and development, oppose and distress the pioneer citizens.

Some years ago a company of this ilk of schemes derised a plan in the shape and name of a "Cascade Mountain Wagon Road Company" and stole a rich belt of land from the government from the Santiam to Snake River, which has held the wealthy development of the country back, and the end of their unjust holdings is not yet in sight; how they became in possession of this grant, assisted by a drunken government, is well known.

So many other schemes have been worked, but this last, this stupendious, outrageous scheme of withdrawing a vast region of pomice sand, sage desert as a "water shed" preserve, "takes the cake."

That agent of the government, who recommended the withdrawal, is not worthy the respect of a common drunk; hold on, I may be too fast, how do we know how much the animosity towards Hermann, who the people elected to congress and who will be in a position to do battle to that great and pious man, Hitchcock, had to do with the creation of this reserve. If this be the case it is a piece of business contemptable in the extreme, but great men do contemptable things sometimes. Or there might be that some of the great monied interests who could not control things as they thought they ought to, might have had some influences at work which made Hitchcock see their way. If this be the case, they know what is what, but the common herd does not know, and it is the design of those who had this withdrawal made with Chief Hitchcock at the head to keep the people in ignorance until the twisters are on their wrists and the fetters riveted and bound.

For a little diversion a little interior show of our own, we have a little reserve withdrawal of about 50,000 acres on Mowry mountain; this we shall dub the Mays reserve, for they, the Mays family, are in the "push", and want Mowry mountain for a summer pasture, to wire it in and exclude all others and finally freeze the settlers all out by making it impossible for them to get fire wood, then the whole country would be an open cattle range. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores physical strength in the only possible way, by enabling the assimilation of the nutrition contained in food.

"I was sick for over three years with a complication of stomach troubles," writes Mr. John H. Customs, residing at 3925 Arch St., Chicago, Illinois. "I had tried every good physician I knew of, as well as many patent medicines, but received only temporary relief. One day a friend recommended your 'Golden Medical Discovery.' I immediately procured same and began its use. Commenced to gain the first week, and after I had taken only one bottle I could eat as well as any one without experiencing ill effects. I took five bottles, and to-day am happy to announce that I am as well and healthy as any one could be. I owe it all to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains. You lose. Therefore accept no substitute for "Golden Medical Discovery."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send twenty-one one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Wonderful Invention.

It is interesting to note the fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, '99. These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in the various cities of the Union and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c, ladies' 50c—half price while we are introducing them. See Wed Column of this paper. The Electric Comb Co., Decatur, Ill.
