Journey To Japan, Korea, Might Be Made By Chief

WASHINGTON (UPI) — President Eisenhower may visit Tokyo and Seoul next summer in an effort to help end the cold war between Japan and the Republic of Korea, informed sources said today.

The prediction that Eisenhower might extend his good will campaign to the Far East, possibly in late June or early July, followed the disclosure that he has decided to visit Latin America sometime next spring.

High administration sources said Thursday the Chief Executive would go to Brazil and four or five other Latin American countries. April was considered a likely month for the trip provided this would not conflict with the contemplated East-West summit meeting in Geneva.

The enthusiastic reception Eisenhower has received on his good will trip to Asia, Africa and Europe was said to have influenced his decision to go to South America.

A ranking diplomat said he believed the success of the current tour also assured that the President would include the Far East to his travel schedule next year.

In any event, officials expect Eisenhower to make a strong personal appeal next month for serious efforts by Japan and Korea to end their bitter feud.

The occasion will be his talks at the White House in mid-January with Japanese Prime Minister Nobusuke Kishi, coincident with the signing of the new U.S.-Japan defense treaty.

A similar, written appeal by the President to President Syngman Rhee presumably would follow.

Eisenhower was expected to urge compromises on the Japanese and Korean demands which have blocked establishment of diplomatic relations and held trade between the two nations to a trickle since Korea regained its independence from Japan after World War II.

Four states entered the Union in 1889. They were Montana, Washington, North Dakota and South Dakota.

Worker Killed

SACRAMENTO (UPI)—Edward J. Doherty, 32, Sacramento, an employe of Aerojet General Corp., was killed Thursday night in a car-truck collision on Highway 50 east of here.

Highway patrolmen said Doherty's car rammed into the back of a dump truck which had stopped on the highway.
