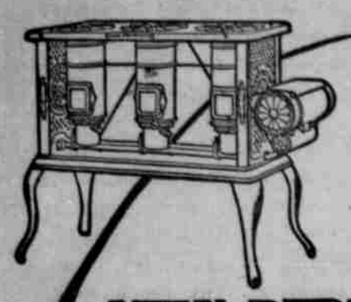
Hot Stove—Cool Kitchen



How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?

You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room. Therefore, when working with the

NEW PERFECTION
Wick Blue Flame Oil Cook-Stove

the kitchen actually seems as comfortable as you could wish it to be.

This, in itself, is wonderful, but, more than that, the "New Perfection" Oil Stove does perfectly everything that any stove can do. It is an ideal all-round cook-stove. Made in three sizes, and fully warranted. If not with your dealer, write our nearest agency.

a substantial, strongly made and handsome lamp. Burns for hours with a strong, mellow light. Just what you need for evening reading or to light the dining-room. If not with your dealer, write our nearest agency.

RAISES CORN SUCCESSFULLY

Tillman Reuter of Madras Is Experimenting With Different Varieties

It has been a mooted question in Crook county as to whether or not corn can be successfully grown. A few people say that it can but the great majority shake their heads in the negative.

The question was put to Tillman Reuter of Madras the other day and it was answered most decidedly in the affirmative.

"I planted five different varieties on my place near Madras last year and all did well. From the six acres cultivated I gathered some 120 bushels. It was planted too thick to obtain the best results, but it made excellent fodder and I am now feeding it to my horses and cows."

"I experimented with the Yellow Dent from the Wisconsin Experiment Station, Yellow Flint (King Phillips) which is fine for fattening cattle and makes lots of good fodder. It does well in this country. It will grow some six feet in height and there will be from 12 to 14 stocks in a hill. Each stock is covered with broad green leaves that make the best kind of feed for milk cows.

The Early Adams is the best table variety and is equal to sweet corn for early table use. When ripened it makes a fine grade of white meal for corn bread. It is a white flint corn and appears to be at home in this climate.

An interesting variety is the Minnisota King corn which is a cross between a Dent and a Flint corn bht has not been thoroughly tried in this country.

Mr. Reuter will plant about ten acres to corn this year and expects even better results than last year.

Lots of Money in the County

Sheriff Elkins reports taxes coming in quite promptly this year. Up to date he has turned over to County Treasurer King something like $90,000. This is away ahead of previous records for money collected at this season of the year.

One result of the financial flurry last fall is the increase in half-payments made by non-resident people. This increase is quite marked this year.

Wheat sales in the Madras country has loosened money over that way and taxes from that part of Crook are coming in freely.
