Ageless Spahn Wins 18th Game

(Continued from Page 13)

gel, the Mets' 73-year-old manager, will retire first.

"That's a tough one," said the Milwaukee manager. "I'll say this, though. It doesn't look like either one is even close to quitting time."

Del Crandall, who has been catching Spahn for almost 15 years, believes the hawk-nosed lefty can continue pitching "as long as he wants to."

"He's in the same remarkable condition now that he was 10 or 15 years ago," Crandall said. "That arm of his never seems to get tired."

Crandall added another revealing thought on Spahn's remarkable major league longevity when he pointed out that "Warren added years to his career when he learned to throw the screwball."

Spahn is inclined to agree.

"It's no secret that I started to lose my fast ball amost 10 years ago," the Buffalo, N.Y., native declared. "I couldn't blow the fast one past the hitters any more so I came up with the screwball to use against right-handed batters. I began using it in 1954 and I've been using it ever since."

Asked if the screwball puts more strain on his aging arm, Spahnie laughed.

"Heck, no," he said. "I don't twist my arm the way Carl Hubbell did. I throw it off my index finger instead of off the middle finger, as you do a curve. At first, I could feel it in my shoulder muscles and I had to take it easy. Now it's no harder on my arm than any other pitch."

In addition to his screwball, Spahn still has a good curve that he throws with varying speeds, a slider, a sinker — and a burning desire to keep pitching "until that old arm falls off."

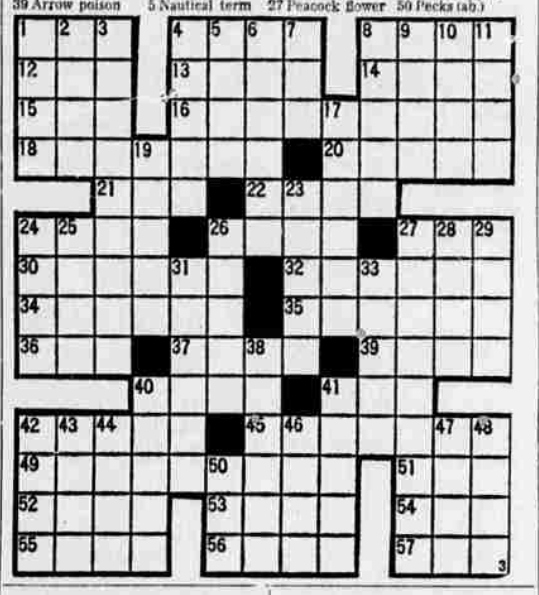
Answer to Previous Puzzle



A U.S. passport can be rendered invalid by the simple changing or attempted altering of any of its official text.

A healthy duckbill platypus can devour 800 earthworms, a handful of grubs and a dozen crayfish at a single meal.

Teller Raps Ban Treaty

WASHINGTON (UPI)—Dr. Edward Teller, chief opponent of the nuclear test ban treaty, believes the United States based its decision to sign the pact on a "false hope" of peace.

Teller said in a television interview Sunday the only way to preserve true world peace is for this country to remain militarily strong "as we have done."

He appeared on Meet The Press . . . NBC.

The nuclear physicist said the treaty would keep the United States from developing an effective anti-missile missile. He said "we desperately need to know the effect of a nuclear blast in the atmosphere" on U.S. radar defenses.

The treaty, which bars all nuclear tests except underground blasts, comes up on the Senate floor for ratification on Sept. 9. It was approved by the Senate Foreign Relations Committee, 16 to 1.

Sen. Thomas J. Dodd, D-Conn., Sunday credited Secretary of State Dean Rusk with persuading several skeptics to support the treaty at a closed committee meeting last Wednesday.

Dodd, appearing on a television program said he thought Rusk "greatly influenced . . . those who had any doubt."

The Connecticut senator specifically mentioned Sens. Karl Mundt, R-S.D., Frank Lausche, D-Ohio, and Bourke B. Hickenlooper, R-Iowa.

Minimum Wage Increase Means Hike In Pay For Many

WASHINGTON (UPI)—An estimated 2,600,000 workers will get pay increases this week ranging up to 10 cents an hour. This is because the federal minimum wage goes from $1.15 to $1.25 an hour effective Tuesday.

The minimum applies to jobs held by nearly 28 million workers involved in interstate commerce but most of them already earn more than the $1.25 hourly rate.

The Labor Department estimated that the raises would add $365 million to employers' payrolls in the coming year.

Extended Coverage

The 44-hour standard week also goes into effect tomorrow for employes in big retail and service establishments brought under the law in 1961.

This means that workers in these categories must be paid time-and-a-half if they work more that 44 hours a week. The wage minimum for this group of workers is now $1 an hour.

Labor Secretary W. Willard Wirtz recalled that the wage-hour law, formally known as the Fair Labor Standards Act, was passed a quarter of a century ago.

Stabilizing Effect

"We have come a long way since the legislation was passed with a minimum wage of 25 cents an hour," Wirtz said in a statement. "Gains since that time have contributed to a higher standard of living and a stabilized national economy."

He termed the law "a beacon of human progress identifiable with the American way of life."

Even as the latest step-up in the minimum takes effect, there are calls for another increase to $1.50 and extension of the law's coverage.

AFL-CIO Favors Boost

The AFL-CIO has gone on record in favor of a boost of 25 cents more in the floor under wages. Leaders of last week's civil rights march on Washington echoed the demand for a higher minimum.

But prospects of Congressional action do not appear bright. Administration spokesmen have supported broader coverage of the law to include laundry, hotel and restaurant workers but even this limited goal is not considered likely to be achieved at this session.

Raising the minimum Tuesday —to $50 for a 40-hour week in jobs covered by the law—has required some labor unions to change their contracts for certain low-paid workers. The law takes precedence over lower, negotiated rates.

Two Killed In Roseburg Track Mishap

ROSEBURG (UPI) — A racing car left the track and plunged into a grandstand in front of some 2,000 horrified spectators Saturday night, killing two men and injuring 23 other persons.

The accident occurred at the speedway five miles south of here during the third lap of a hardtop race.

Dead were spectators Orval Bell, 27, and Del Ray Peirsol, 42, both of nearby Winston. Roger Mills, 18, also of Winston, was injured critically.

None of the others hospitalized was reported in serious condition. Thirteen were released from hospitals Sunday or were treated for minor injuries after the accident and released. Nine others were listed in good condition today.

Driver Bruised

Marion (Bud) Van Osten, 30, Roseburg, driver of the car, was thrown from the vehicle and suffered bruises and abrasions.

The accident occurred, officials said, when Van Osten's left rear wheel apparently caught the right front wheel of the car driven by Al Welker. Van Osten's car flipped over a retaining wall and into the grandstand's third, fourth and fifth rows.

Welker's car spun but wound up harmlessly in the center of the track. He was not hurt.

Local Fans Hurt

The injured were from the Roseburg area except for Hilda Ahmstrom, 25, Fremont, Calif., who suffered a leg fracture, and her husband, Alfred, 25.

Others who were hospitalized included: Dennis Mills, 52, Winston; Susan Mills, 17, Dillard; Andrea Mills, 21, Winston; Sherman Davis, 44, Winston; Billie Jean Black, 18, Winston; Pat Lail, 18, Winston, and Ina Jean Bell, 20, Winston.

Others treated for injuries included Mrs. Virgil Mills, 23, Winston; Mrs. Harold Marlow, Winston; Thomas Jones, 20, Roseburg; Pat Harty, 17, Winston; Ralph Christopher, 15, Eugene; Harry Thorn, 22, Roseburg; William Robertson, 27 Winston; Frank Davis 13, Winston; Wanda Lee Hooper 28, Eugene; Rodney Burkhart, 21, Coquille; Edgar Person, 44, Roseburg, and Harold Keeney, Winston.

DeSylvia Will Not Return

EUGENE (UPI) — Reserve quarterback Terry DeSylvia will not return to the University of Oregon this fall.

Football coach Len Casanova said Monday DeSylvia has told him he plans to move to California with his father and transfer to a school in that state. DeSylvia would have been a junior this fall.

His father, Tom, former Jefferson High School and Portland State football coach, has accepted a high school coaching job at San Mateo, Calif.

Casanova put his team through two workouts, including a scrimmage session, Monday.

WOULD BAR MARTELLI

LONDON (UPI) — Britain announced Monday night it has asked the European Atomic Agency (EURATOM) not to renew the employment of Italian scientist Dr. Giuseppe Martelli, who was tried and found innocent of charges of preparing to spy for Russia.

Martelli was working on non-secret research at a British atomic station on loan from EURATOM when arrested and tried as a potential spy. He has been suspended since his arrest in April.
