A NEEDED IMPROVEMENT IN THE CEMETERY.—The city will improve its cemetery a greeable to recommendations made by the mayor. The council has appointed a committee to carry out the same. The idea is to have the present cemetery resurveyed and platted, locating all occupied space on same, and staking out what vacant land there is in a systematic manner. When this is done, certificates will be given all present lot owners, so they will have something to show for their title to same. Those who have lots and burial space not enclosed or staked, can be of great assistance to the surveyor by placing stakes at the four corners of lot claimed, with name on one of the stakes or on a board. The size of lots as fixed by ordinance is 12 by 18 feet and single burial space is 4x8 feet. This should be done promptly as the surveyor will begin soon. It is hoped that all citizens will help in this matter as the cemetery is something in which all should take a pride in making creditable to the city.

Fine views and excellent water in Sunset. F. E. Donaldson.

CATCH IS SHORT.—The fishing season opened with a fair supply of salmon in the market, but not so many as had been expected. The supply from the Clackamas and Oregon City was nothing like what it was last year, when several tons of salmon were shipped from this section every day for several days after the season opened. Last year it was no uncommon thing for a boat drifting below the mouth of the Clackamas during the first few nights of the season to take 100 fine big chinook salmon. Last Friday night they went out early, and up to a late hour, very few boats had taken more than five fish. As there were some fine catches made down about St. Helens, either the fish had not got up to the Clackamas and the falls, or the fact that the dam in the Clackamas no longer stops them had led them to hurry on up that river.

Reliable fire insurance. F. E. Donaldson, agent.

LAND OFFICE RECEIPTS.—Receiver Galloway's report of the receipts of the Oregon City land office for the first quarter of 1897, shows the total to have been $2217.91. Fifty homestead entries were made, covering 6900.97 acres; 81 final homestead proofs, covering 11,496.87 acres; state school selections comprising 11,193.65, and wagon road selections of 22,967.57 acres, on which fees amounting to $1899.29 were paid.

"I don't believe there ever was so good a pill made as Ayer's Cathartic Pills. They will do all you recommend them for and even more. When I have a cold and ache from head to heels, a dose or two of these pills is all the medicine needed to set me right again. For headache.*

Pill Clothes.

The good pill has a good coat. The pill coat serves two purposes; it protects the pill, and disguises it to the sensitive palate. Some coats are too heavy; they won't dissolve, and the pills they cover pass through the system, harmless as a bread pellet. Other coats are too light, and permit the speedy deterioration of the pill. After 30 years exposure, Ayer's Sugar Coated Pills have been found as effective as if just fresh from the laboratory. It's a good pill, with a good coat. Ask your druggist for

A WORD OF MEN'S SHOES...

Shoe bargains, but never bargain shoes. Do you catch the idea? If great buying—if having large lots of shoes made—if the impetus of this great shoe business helps to make prices abnormally small—then we have shoe bargains. These causes and readjustments of our stocks, as sizes become missing, bring all the shoe bargains we ever have. "Bargains Shoes" don't exist otherwise. For shoes "made to sell," for shoe trash of any kind, we've no room.
