They Come Highly Recommended.

The Electric Belt company who are nightly giving free entertainments on the vacant lot on Main street opposite the Catholic church, come here highly endorsed by the press of Tacoma, where they sold over one thousand belts. Mr. Daniels, the manager, can be seen at room 8 Cliff House, during their stay. For rheumatism, kidney or liver trouble, electricity is fast becoming the medicine. Parties suffering from lost vitality, general debility or stomach trouble, should get one. They are sold for $1 and on trial. That should be sufficient to convince the most skeptical. Electricity is fast becoming the medicine and power of this country.

Our Pamphlet.

Portland Chronicle: Hon. E. E. Charman, president of the board of trade of Oregon City, has favored the Chronicle with a copy of an illustrated pamphlet of that section of the state, issued under the auspices of the board, and abounding with full information concerning the great natural resources of Clackamas county and the extensive improvements at Oregon City, encompassed by means of the incomparable water power furnished by the Willamette falls. The text is concise and conveys the full meaning of every detail, while the illustrations are not only superb works of art, but make a remarkable showing of the expenditure of capital and the enterprise of a progressive community. The pamphlet will be extensively circulated and cannot fail to be of inestimable benefit to its promoters and the community in which they live, prominent among whom is Mr. Charman. He is one of the most enterprising and prosperous citizens of Oregon City and allows no chance to escape whereby he may benefit his rapidly-growing town. He is building for the future and his works will live after him, even as that of the pioneers.

St. Helens Mist: This office is in receipt of a descriptive pamphlet of Oregon City, authorized by the board of that city, and printed by Charles Meserve, of the Enterprise. The pamphlet contains illustrations of the principal buildings of the city, the many manufacturing plants, the great falls of the Willamette, and the steamboat canal, besides a comprehenrive write'up of the many resources of Clackamas county and Oregon City. In all it is a splendid advertisement, and speaks well for any city whose citizens are so enterprising and energetic.

We are in receipt of a pamplet descriptive of Oregon City and the Willamette falls. It was gotten up and sent out by the Oregon City Board of Trade, for the purpose of showing the people the advantages offered by that city for business enterprises. It is profusely illustrated and is a good piece of work and was printed at the Enterprise office.—Clatskanie Chief.

Hood River Glacier: The Glacier has received through the courtesy of Mr. Charles Meserve, of the Oregon City Enterprise, an illustrated pamphlet descriptive of Oregon City and its great waterfall, manufactories and public buildings. This historic old city seems to be just waking to the possibilities of its greatness. With its magnificent water power it is destined to be a great manufacturing center.

Notice.

Having disposed of my mercantile business at Gladstone to Mr. Chas. Bolds who will on and after this date have full charge, all parties having accounts with me are requested to call at once at the store where I will be for a week, and make settlement. It will be to the advantage of all if this matter is attended to promptly. T. M. Cross.
