—The Fire Department meets next Monday night. It is important that there be a good attendance. Among other matters to come up is the annual election of officers. Still fresh in mind, is the fact that but recently the department was in a condition of inocuous desuetude, due to non-attendance. A repetition can be prevented if all firemen, active and honorary, remember the date and occasion.

—Many townsmen are watching for gravel-hauling to begin on Jefferson street. That thoroughfare was newly graded last spring, and so far no gravel has been put on it, except at crosswalks. It is understood that the street committee has contracted for the work to be done, but the fact that there is a delay in beginning makes it feared that an unusully early freshet, such as came three or four years ago in September, might prevent completion of the job, and occasion great damage to the new grade that would be certain to result during the winter.

—The transmitters arrived Thursday morning for the new Independent Telephone lines, and the city is now mostly connected with the switchboard. It is thought that by this evening all the phones that are now in position on the new lines will be in working order, and as soon as the test is finished a directory will be issued and the system will be complete in Corvallis. There are many desk phones in operation in business houses, and they as well as the wall phones, are models of neatness and perfection of workmanship in the line of telephone instruments.

Why not let The Royal Tailors of Chicago make your fall suit or overcoat? When delivery is made, there will also be delivered a direct guaranty covering the quality of goods, the style and fit of the garments and the workmanship.

And that guaranty is worth one hundred cents on the dollar to you. It means that you are to be satisfied with the garments when you get them—satisfied that they were *made expressly for you*, to your own measure—and it means that they will wear well, give you good service, and hold their shape as rightly-tailored garments should.

The cost of Royal tailoring is so low that you might almost think price was the first consideration. But it isn't. Value is first. Value-giving is at the basis of The Royal Tailors' success. The best for the money always—that is the Royal idea.

Customers of The Royal Tailors are invited to guess how many people will attend the World's Fair at St. Louis. They offer prizes consisting of ten Automobiles, to be given to the ten persons making the closest guesses. The cost of these Automobiles is $13,700. There are also eight cash prizes of $100 each, making the total value of the prizes $14,500. For every dollar you pay on an order for Royal tailoring you can make one guess; on a $15 suit you can make fifteen guesses, and on a $20 suit you can make twenty guesses, and so on—a guess for every dollar.

The Royal Tailors carry a million-dollar stock of woolens—something sure to please everybody; suits and overcoats for men and boys—ladies' man-tailored skirts and coats—all made strictly to measure at an actual proven cash saving of fully twenty-five per cent.

But the thing to do is to see the goods and get the prices. You can do that by calling on
