Firearms and Ammunition

THE remarkable favor shown by the shooting public to Remington-UMC rifles and shotguns, shot shells and metallics means just one thing—

That sportsmen everywhere are becoming more conscious of their desire for the dependability that they find only in Remington-UMC arms and ammunition.

So you see the keen sportsman, when buying a new rifle or shotgun, go to the dealer who displays the *Red Ball Mark of Remington-UMC*. Or if he is already fitted with a rifle or shotgun, his tendency is more and more to shoot Remington-UMC shot shells and metallics—the ammunition that flatters any make of gun.

The *Red Ball Mark of Remington-UMC*—find the dealer who displays it. Look for it on every box of ammunition you buy.

To keep your gun cleaned and lubricated *right*, use Rem Oil, the new powder solvent, rust preventative, and gun lubricant.
