To a Machinist with "Know How"

If you figure you know your stuff and want a chance to show it . . . want to work with men who take pride in their job . . . if you figure a permanent company is your kind of company, then this is your ad. Here at Southern Pacific, we want men of your type to work in our big railroad shops or roundhouses . . . to help rebuild and repair locomotives and other railroad equipment. We think you'll like railroading . . . like seeing a locomotive (that you worked on) go out and do a job pulling war freights or troop trains. And like the men you work with—the kind of fellows you'll want to have drop around to the house. New, higher railroad wages. Liberal age limits. Medical service. Fine pension plan. Railroad pass privileges. All the things that make this a really good job.
