GIVE ME HEALTH AND A DAY

★ "Give me health and a day and I will make the pomp of emperors ridiculous" was Ralph Waldo Emerson's terse but eloquent opinion of the value of health. The vibrant, glowing health of which he speaks is seldom an accident of birth. Its price is constant vigilance, with proper regard for rest, fresh air, exercise, and diet.

At the first sign of illness see your family physician. He is your skillful and never-failing ally in the preservation of health. If, in his judgment, medication is needed, bring your prescription to us.
