Strong Bones

In speaking about Scott's Emulsion for children, you should not forget that it contains ***lime*** and ***soda,*** just what the child must have to form strong bones and good teeth. It's this forming time you want to look after.

Growing bodies must have an easily digested fat. Just think how much of it there is in milk, as cream.

Scott's Emulsion

is even more easily digested than cream. It's surprising how children thrive when given it.

Don't keep the children living on the edge of sickness all the time. Make them strong and rugged, plump and hearty. Scott's Emulsion of Cod-liver Oil and the Hypophosphites of Lime and Soda will do this for them.

At all druggists; 50c. and $1.00.

Wall street thinks that it has a good thing in Secretary Gage.

The House will be lucky if it can recognize its gold standard bill when the Senate gets through with it.

The republicans say that the democrats have no issue for next year Wrong! If they had n thing else, Mark Hanna alone would be sufficient.

How much better off has this prosperity made the laboring man with his wages raised 10 per cent. and the prices of everything he buys raised 30 to 40 per cent. by the trusts?

Our great and good friend, the Sultan of Sulu, is said to object to having his salary paid in Mexican dollars, while his sovereign, William McKinley, stipulates for gold or its equivalent.

From recent experience, it would seem to be in order to move the Treasury department of the government to New York city, and place it in charge of the National City bank.

From the fact that the British have seized our flour ships destined for Delagoa bay, would seem to indicate that they believe it might be easier to starve the Boers than to whip them.

If Hanna is not careful he may find that McKinley's personal popularity, on which he has been trading, may fail before the next election. Imperialism, even in party politics, has before now been resented by the members of the dominant party.

How does the number of factory operatives, whose wages have been raised by "prosperity," compare with the number who have been discharged altogether by the closing down by the trusts of the factories wherein they worked?

McKinley's plan of relieving the money market by depositing internal revenue receipts in the hands of the bank whose officers engaged in bringing about the stringency, looks much like another instance of placing the lamb under the guardianship of the wolf.

He is not a true patriot who swears by his "country, right or wrong," but rather he who tries to keep his country's flag unsullied and her honor bright, and who does his best to restrain her when he thinks that she is going wrong.

Commissioner Chamberlain of the Navigation Bureau hits the protective tariff a hard blow when he says in his annual report that the extension of our merchant marine is required for the carrying of American goods abr d.

Senator Hoar wants the administration to tell just what it means to do with the Philippines. This is too cruel. The president should not be asked to make up his mind in a hurry, even though he might save thousands of lives, both of Filipinos and Americans by so doing.

McKinley evidently regards the "Standard Oil crowd" as a pretty good friend to have, when a diffienlt and explosive campaign is coming on, judging from the way his Secretary of Treasury is favoring the National City bank in the matter of depositing the internal revenue receipts in that bank.

Of course the administration opposes the cutting down of southern representation in the republican national convention. The administration has always been able to secure a practically solid vote for renomination from the southern delegates. Harrison's renomination was entirely due to their support.

Secretary Gage should really preserve better harmony in the Treasury department. Just as he is getting ready to supply a third dose of prosperity to the forlorn New York speculators, his Director of the Mint comes out in a statement that all such actions will only make speculation fiercer and ultimate crash more certain.

Every day adds to the list of deaths attributed to heart failure. If the truth were told the bulk of these deaths might be written down as due to *stomach failure*. For it is in the failure of the stomach and other organs of digestion and nutrition, that "weak" heart, "weak" lungs, "weak" nerves and other forms of physicial deterioration having their beginning. The man whose stomach is sound, who can digest and assimilate the food he eats, and so keep each organ of the body well nourished, is the man who is least liable to collapse under the sudden weakness of some vital organ.

The preservation of health which follows the use of Dr. Pierce's Golden Medical Discovery, is chiefly due to the fact that it perfectly and permanently cures diseases of the stomach and organs of digestion and nutrition, purifies the blood and increases the blood supply of the body. Weak people will find in this medicine a sure means of strength.

"I was under doctors' care for quite a time," writes Mr. J. F. Kidd, of Parmleysville, Wayne Co., Ky. "They had almost given me up, and my suffering was very great. My pulse was weak, breath short and I had severe pains in back, head and legs. Had palpitation of heart, and for eleven months I was not able to do a day's work. I purchased five bottles of Dr. R. V. Pierce's Golden Medical Discovery and by the time the fifth bottle was gone I was a well man."

To the Music Loving Public.

Those contemplating taking up the study of music will find it to their interest to investigate the advantages offered by Albany College. The following branches are taught:

VOICE, PIANO, ORGAN, VIOLIN, GUITAR, MANDOLIN CORNET, HARMONY, COUNTERPOINT, COMPOSITION and HISTORY OF MUSIC.

Mr. Wirtz, Musical Director, is a graduate of the Chicago Conservatory of Music, and has studied with such artists as Seebocck, Ziegfeldt, Koelling, Falk, Garwood, Ruff, and the late Dr. Karl Merz. These men are masters in their respective departments and musicians of world-wide fame.

Mrs. Wirtz, instructor in vocal music, is a pupil of Mr. William Nelson Burritt who is known to be one of the best voice teachers in America today. Mr. Burritt studied eight years in Italy and several years in London.

The methods used in Albany College Conservatory are the latest and most approved, being the combined result of superior instruction received, experience, and the acquaintance with the methods of our eastern conservatories.

Tuition reasonable. Pupils may enter at any time.

Fall term opens Sept. 19, 1899.
