The secretary of state, who is ex-officio insurance commissioner, gives out the following as an item of news which he hopes will be published by the newspapers of the state, as a matter of public interest: Several so called "mutual benevolent insurance associations" that are unable to prove that they have sufficient capital to entitle them to a license to do business under the laws of this state have recently, in violation of our law, sent agents to the state to solicit insurance on the assessment plan. For the protection of the people the insurance commissioner states that the traveling agents of all duly licensed life insurance companies have licenses from the insurance department to act as life insurance agents. Persons professing to be such agents should be called upon to exhibit their licenses. Fraternal benevolent societies, such as Masons, Odd Fellows and Knights of Pythias, are not required to have licenses to grant such pecuniary relief as is authorized by their regulations; but such societies do not employ agents to solicit insurance. The insurance commissioner requests that he be notified whenever the agent of an unlicensed company solicits insurance in this state, as it is his intention to secure the prosecution of such violators of the law. He sends out this item in the hope that the newspapers and the public will co-operate with him in his efforts to uphold the law and protect innocent persons from being deceived and defrauded.

All Rail to the East.

To day will be memorable in the history of Jacksonville, as witnessing the connection by rail of the old shire town with the S. P. railroad. We may well prepare to jubilate next Thursday with the younger generation over the fact that the railroad has had a happy issue out of all its troubles. It has been a long time "aborning," but it seems lusty and vigorous, and who knows but it will be extended to salt water in one direction and to the big timber in the other before a decade goes by. Turn out everybody and dance to its success at the U. S. hall next Thursday evening.
