LAWS OF NEWSPAPERS.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscription.

2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrearages are paid.

3. If subscribers neglect or refuse their periodicals from the office to which they are directed, they are held responsible until they have settled their bills, and ordered them discontinued.

4. If subscribers move to other places without informing the publisher, and the papers are sent to the former direction they are held responsible.

The Courts have decided that "refusing to take periodicals from the office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud."

Any person who receives a newspaper and makes use of it, whether he has ordered it or not, is held in law to be a subscriber.

If subscribers pay in advance, they are bound to give notice to the publisher, at the end of their time, if they do not wish to continue taking it; otherwise the publisher is authorized to send it on and the subscriber will be responsible until an express notice, with payment of all arrearages to the publisher.

DR. W. K. DOHERTY'S

Medical AND Surgical Institute,

No. 649 Clay Street,

Between Kearny and Montgomery-sts

DR. DOHERTY'S Largely and Steadily Increasing Practice, which has constantly kept pace with the unexampled increase and steady growth of the Pacific Coast, induced his removal from his long established and well-known quarters, on the corner of Sacramento and Leidesdorff streets, in this city, to more commodious and eligibly located apartments, at No. 649 Clay Street, where he has a spacious suite of handsomely-fitted up and conveniently arranged Examination and Consultation Rooms, (occupying the whole of the two upper stories) which patients may at all times visit unseen by the Doctor and his assistants.

With the most grateful sentiments of regard for the liberal patronage bestowed on him for the past thirteen years, at his old office,

DR. DOHERTY

Desires to inform the General Public, and especially all those laboring under all forms of Chronic Complaints, that he can be consulted at 649 Clay street, on every variety of Disease of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all

SPECIAL DISEASES,

of which the list is numerous, and which are more closely connected with the general health than the majority of people are aware. Unhappy invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their miseries become too acute to be repressed, and mental and physical debility unfit the sufferer for the active duties of life. This latter type of affliction manifests itself in the complaint professionally known as Syphilis, in all its forms and stages; Seminal Weakness, and all the distressing forms of Self-Abuse, or Onanism; Gonorrhœa, Gleet, Stricture; Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible diseases, in whom the Doctor has effected a radical cure, can be counted by the thousand, and the voluntary certificates in his possession, received from persons he has restored to health, are enough to satisfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy cures, even in obstinate cases. Diseases which formerly baffled the medical skill of the most learned and experienced Practitioners of the healing art, and were regarded by the majority of Physicians as utterly incurable, now yield to modern remedies, when prescribed by the intelligent Practitioner who makes the human system, and these special ailments, his constant study and subject of observation.

In no case is publicity permitted except they express wish of the patient; and the Doctor ardently trusts that his long experience and successful practice will continue to insure him a liberal share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds.

He cures without mercury, charges moderate fees, treats his patients in a correct and honorable way, and has references of unquestionable veracity, from men of know respectability and high standing in society. All persons who may consult him by letter or otherwise, will receive the best and gentlest treatment.

To Females.

When a female is afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, derangement of digestive functions, general debility, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, she should go or write at once to DR. W. K. DOHERTY, at his Medical Institute, and she will receive every possible relief and help.

Let no false delicacy prevent you, but apply immediately, and save yourself from painful suffering and premature death.

Patients (male or female) residing in any part of the country however distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred.

The Doctor is a regular graduate, and may be consulted with every confidence.

If the disease be fully and candidly described, personal communication will, in most cases, be unnecessary, as instructions for diet, regimen and the general treatment of the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted.

Should your condition require immediate attention, send ten dollars in coin, (or that value in currency) by Mail, or Wells, Fargo & Co's. Express, and a package of medicines will be forwarded to your address, with the necessary instructions for use.

Consultations, at the office or by letter FREE. Address W. K. DOHERTY, M. D., San Francisco, Cal.

P. S.—The Doctor will send his pamphlet on Special Diseases, to any address on receipt of six cents in postage stamps, for return postage.

YOUNG MAN

Who may be suffering from the effect of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bowering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination, the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In vain may the doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment $25 00. Send money by Postoffice order or Express with full description of case.

Seminal Weakness.

Seminal emission the consequence of self-abuse. This solitary vice, or depraved habit, so fatal to manhood, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz:

Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, the sufferer should apply immediately, in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give one hundred dollars to any person who will prove satisfactorily to him that he was cured of this complaint by other of the San Francisco quacks.
