The appropriation is made contingent on an appropriation of $50,000 by Jackson county for constructing that section of the road from Medford to the Cascade forest reserve.

By the terms of the bill the governor is empowered to appoint a commission of seven members, two to be residents of Jackson county and two of Klamath county. No member of the commission is to receive any compensation for his services, but they are to be allowed actual expenses while engaged in the business of the commission.
