"AMERICA'S FINEST FLOURING MILLS"

Costs more PER SACK
Costs less PER LOAF

AUTHORITIES concede that the FISHER FLOURING MILLS COMPANY has the most perfectly constructed, best arranged and modern equipped plant ever built in this country. It employs only the most experienced millers and uses selected Eastern Hard Wheat and choice Western Soft Wheat in producing

FISHER'S BLEND FLOUR

Naturally, it costs more to turn out this new, high-grade blend than it does to make simpler and less carefully handled flours. Hence, its price per sack is slightly more. Inasmuch as it is not flour but loaves of bread that we eat, and as FISHER'S BLEND makes more loaves, in proportion to its cost, than does any other flour, housewives and others using it have the satisfaction of knowing that they are really getting more and better values for their money. FISHER'S BLEND costs more as flour, but it gives more, both in quality and quantity of loaves, and is therefore actually more economical to buy and use than are the cheaper brands.
