A NEW sewing machine by a Jones, of Cardiff, has no shuttle or bobbin. The thread is supplied directly from two ordinary spools, and sews through the assistance of a rotary hooper. It is vastly more simple than any other sewing machine.

ABOUT 4,500 species of wild bees are known, of wasps, 1,100, of which 170 and 10 respectively live in Britain.

THE cork worm has come to plague the champagne producer. The insect bores the cork, slices to the neck of the bottle, and thus gains access to the wine, releasing the carbonic acid gas and spoiling the wine.

FRENCH scientists are puzzling over a spider which was discovered in a cavity in a stone. It is estimated that the stone must be four thousand year old; this, notwithstanding, however, the spider is quite lively and very youthful in its antics. It is blind and has no mouth.

A Mystery.

How the human system ever recovers from the bad effects of the nauseous medicines often literally poured into it for the suppositive relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they who are weak, bilious, dyspeptic, constipated or rheumatic, would oftener be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest and derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery local bitters and stimulants often resorted to by the debilitated, dyspeptic and languid.
