AT THE COVEY MOTOR CAR COMPANY PLANT.
A factory allotment of 100 new Dodge Brothers Motor Cars per month is one of the greatest reasons for producing in the used cars we sell; the very highest quality at the lowest competitive price.
Approximately 80% of our new car sales involves a trade. To attain the necessary used car volume, these various cars traded in, and the firm that sells them, must be as popular from a used car standpoint as are new Dodge Brothers Motor Cars generally.
This result can be obtained only through absolute responsibility, the desire to give more and ask less and the financial means and plant equipment to carry out the desire.
If you will but check our rebuilt and refinished used cars and their prices against our necessity, our desire and our results it will be easy to understand why there is so little variation in our used car sales volume.
