Benson Offers Mile Of Road as Gift to Hood River County

When the Multnomah county unit of the Columbia highway shall have been paved there will remain a stretch of new grade in Hood River county between the end of the Multnomah county pavement and the Cascades about one mile in length, which will be impassable during the rainy season.

The plan contemplates the laying of a bitulithic pavement nine feet in width, the cost of which is roughly estimated at $10,000.

One object in making the pavement only nine feet wide is an experimental one in order to ascertain if the width is sufficient for ordinary traffic.

OBSERVE the Giant Cords here pictured.

Note that there are only TWO (2) layers of these giant Cords, in any Silvertown Cord Tire, whatever its dimensions,—with a layer of live Rubber between, to absorb friction.

Then bear in mind that *each* of these TWO flat, rubber-impregnated, Cords is STRONG enough to lift *a man's weight.*

You have *here* the secret of that marvellous ENDURANCE, in Silvertown Cord Tires, which has made it possible for the Gladiators of the Race-Track to TAKE OUT OF the Motor Cars they drive, ALL the speed which the Builders of these Cars can put INTO them.

That no "Thread" Tires, (calling themselves by the Silvertown name of "Cord" Tires), show pictures of their 5 to 7 layers of Thread construction,—is *significant.*

But, that none of them are SEEN, or HEARD from on the Race-Track (which is the *Crucible* for testing Tire ENDURANCE)—is MORE than significant.

Silvertowns have never been intended as mere RACING Tires.

But, the fact that the Speed-Kings of the Race-Track elect to PAY FOR THEM, when they could have other Tires *free* for the asking, is mighty well worth noting.

SILVERTOWN Cord Tires, not only give PRESTIGE, Ease-of-Riding, and *Aristocratic Elegance* to Cars equipped with them but they also add:—

—1st—17% *more* Net-Power and Speed to same Car.

—2nd—30% *further* Coasting Quality.

—3rd—25% more Mileage, *per Gallon* of Gasolene.

And,—this *latter* feature soon pays for the relatively small additional cost which SILVERTOWN Cord Tire Construction makes necessary, per Tire.

No Thread (or so-called Cord) Tires *average* "LARGER."

The demand for Silvertown Cord Tires has, for nearly two years, far exceeded our capacity for production.

But Silvertown Cord Tires may NOW be had through all GOODRICH Dealers and Branches.
