FRUIT LAND.
We have absolutely the best fruit land proposition on the market, consisting of several hundred acres on line of survey Mount Hood R. R., near Firwood east of Sandy P. O., acknowledged to be the equal of Hood River in production of first-grade fruit. The soil is of shot formation with clay subsoil, just the proper elevation—about 1200 feet, and owing to contour of hills allows good air drainage, therefore no damaging frost, which, with abundance of running water (no irrigation necessary) all go to make this an ideal location for commercial apple raising. Now is the time to invest, while land is still cheap, from $20 per acre up. Soon as railroad is built values will quadruple. Call and let us show you.
