WHY is it we are classed as having the best buys in the city for the money? Because the manager has had about 12 years' experience in the business and it does not take him long to convince the seller that his car is only worth so much on the market and by paying cash for all the cars he buys enables him to always have on hand the very best buys obtainable, and as we are an old, reliable firm, you take no chances in buying a used car from us.
We will be pleased to have you call and look over our tremendous stock now on hand. Remember, you are going to pay from 25 to 35 per cent more for used cars in the near future and take Hopkins' choice.
