15,000 MEN SOUGHT MONTHLY FOR NAVY

Deferred Classification Men May Apply for Induction Now.

8500 WILL BE DRAFTED

Special Ratings for Men in Class A-1 of September 12 Registration Are Provided.

Lieutenant Gandy, of the local Naval Mobilization Station, Dekum building, Third and Washington streets, has just received instructions from the office of mobilization instructor for the Western division of the United States Navy regarding qualifications of men eligible for induction into the Navy.

Fifteen thousand men a month are wanted in this branch of the service, of which number 8500 will be secured under the selective service law, and 6500 are to be obtained by individual induction. The recruiting office still is allowed to obtain an unlimited number of men from deferred classifications, it being not required that they be specialists, and any man, regardless of professional ability, if in a deferred class, may be voluntarily inducted if he meets the physical requirements.

Men obtained by individual induction must meet the following qualifications:

Class A-1 September 12, Registration Only.

Pay officer's material school, ages 21-49, quota 7, qualifications—Must possess proficiency in arithmetic and exchange, composition, English grammar and spelling, general information, American history, officer-like qualities, previous practical experience and efficiency during active service in the Navy or N. R. F. Men who successfully complete the two months' course and are recommended by the commanding officer as the result of satisfactorily passing the prescribed examinations will be recorded to the Bureau of Navigation as eligible for commissions as assistant paymasters, U. S. N. R. F., with the rank of ensign for general service. If examination is not passed men will revert to their ratings held at the time of their selection for the school.

Naval Auxiliary Reserve (deck) officer, ages 21-40, quota 12, qualifications—Men of ability and officer material. Education equivalent to at least completion of high school course, including a good knowledge of trigonometry and logarithms. Physically qualified for line officer—standard of regular Navy. Must be in the regular Navy or Naval Reserve force (any class) for general service. Shall have had at least one month's military training or its equivalent.

Naval Auxiliary Reserve, engineer officer material, ages 21-40, quota 18, qualifications—Men of ability and officer material. Completed high school course and graduate of engineering course at a recognized technical school or an equivalent of above. Must be regular Navy or Naval Reserve (any class for general service. Physically qualified for line officer—standard of regular Navy.

Machinists' mate (submarines) ages 21-35, quota 2, qualifications—Must be a skilled mechanic; a man of unusual intelligence, mechanical aptitude and capable of living in cramped quarters and working under unfavorable surroundings and conditions.

Machinists' mates (aviation) ages 21-40, quota 19, qualifications—The following outline are the duties and qualifications of mechanics for aviation ratings: Duties: Supervision, assembly, maintenance and complete repair of various makes of sea-plane engines received (knocked-down) or returned in a damaged condition for overhauling. Men must be highly skilled internal combustion engine experts in standard makes of sea-plane engines and have detailed knowledge of their construction and operation. Must also be accurate on lathes, planers, shapers, milling machines, various grinding machines, drills and other tools used in the manufacture or repair of machines.

Quartermaster (aviation) ages 21-40, quota 10, qualifications—Must be a thorough light canvas or cloth worker, capable of doing accurate cutting, hand or machine sewing and stitching and fitting and able to apply "dope" and varnish for glueing, finishing and coating. Must be handy with tools, possessing a knowledge of drafting and be able to read drawings and in relation to rigging. Duties: Cutting, sewing and treating cloth to fit seaplane wings in case of new, or for repairing damaged planes, assembly and repair of seaplanes in general, excepting engines and propellers, including riggings and inspecting.

Carpenters' mates (aviation) ages 18-40, quota 10, duties—Assembly, maintenance and repair of the fuselage and pontons, struts and propellers of various types of seaplanes, including inspecting, testing, construction and plans of airplane propellers. Qualifications: Must be capable of building or glueing up laminated stock for propellers, machining, finishing, balancing and fitting hubs and parts for propellers, and able to do dove-tailing, inlaying sections of wood, thoroughly familiar with all joiner and cabinet-makers' hand tools and necessary woodworking machine tools.

Coppersmiths (aviation) ages 21-40, quota 1, qualifications—Must be experienced and able to work to drawings, sketches and layout and form from sheets and be able to tip wooden parts with sheet metal, solder joints and copper wire, repair gas tanks and radiators, must be familiar with cutting patterns from drawings. Duties: Repair of coppersmith work and aluminum work of any character and for any purpose in connection with seaplanes.

Machinists' mates (general) ages 21-40, quota 21, qualifications—Must be machinists by trade; must be familiar with names and uses of the various parts of marine or stationary engines and boilers; must be able to perform work with the various tools in a machine shop, including bench work.

Carpenters' mates (general) ages 21-40, quota 9, qualifications—Must be a carpenter by trade and after qualifying by an examination will be rated according to his ability.

Boilermakers (general) ages 21-40, quota 2—Applicants for enlistment in this rating must be competent boilermakers by trade.

Hospital Corps, ages 18-25, quota 20, qualifications—Applicants for this rating should have a high school education or its equivalent and be tempermentally fitted for this class of work.

District officer material school, ages 21-30, quota 19, qualifications—Men of ability and officer material. Completed high school course and graduate of engineering course at a recognized technical school or an equivalent of above. Must be regular Navy or N. R. F. (any class) for general service. Physically qualified for line officer—standard of regular Navy.

ELLA FLAGG YOUNG DIES

NOTED CHICAGO EDUCATOR TAKEN BY PNEUMONIA.

Leader of Progressive Ideas in Work Passes Away Following Attack of Influenza at Capital.

WASHINGTON, Oct. 26.—Ella Flagg Young, chairman of the National woman's liberty loan committee, died today of pneumonia, following an attack of influenza.

Mrs. Young was one of the best-known woman educators in the United States. She was a leader of progressive educational ideas to which she devoted more than 50 years of her life.

She was chosen superintendent of Chicago's public schools in 1909 from a list of six candidates, five of whom were men educators of National reputation. She succeeded Edwin G. Cooley and was the first woman to be selected superintendent of schools in one of the largest American cities. As head of the public schools of Chicago she was intrusted with the education of 300,000 children.

She inaugurated many important reforms, among these being the teaching of sex hygiene, the enlargement of the kindergarten course, an increase in the scope of the vocational training department and simplification of the curriculum of the primary grades. She insisted upon the complete divorce of politics from the public schools and fought many successful battles in support of this principle.

In 1913 a faction of the Chicago School Board planned to oust her from her position as superintendent. She anticipated the move by resigning suddenly. Mayor Harrison was appealed to by the public to have her withdraw her resignation and return to her official duties, although she was nearly 70 years old at the time.

Mrs. Young declined to return unless her enemies on the School Board retired. Mayor Harrison was obliged to accept the resignation of five trustees before Mrs. Young again would assume her official duties. She triumphed in every clash she had with the politicians in the School Board affairs.

Mrs. Young was born in Buffalo, N. Y., January 15, 1846, and was brought to Chicago by her parents when a young girl. She graduated from the Chicago public schools and was appointed teacher in the primary grade in 1862, when she was 17 years old.

She was married to a Chicago merchant in 1868, but her husband died a year later.

SHOW GIRLS SEEK WORK

SOME ARE EXPERIENCED STENOGRAPHERS; AID ASKED.

With Actor in Shipyards Actresses Unable to Find Suitable Employment, They Assert.

Futile atempts to find employment to fill in the idle interim caused by the epidemic of the Spanish influenza have brought an outburst of indignation from show girls who were caught in Portland when the closing orders came. Though unable to furnish references that are demanded by employers, many of the girls are experienced stenographers and offic assistants, and gladly would accept employment that would tide them over while the theaters remain darkened.

"The fact that the theatrical men have had no trouble in finding employment at the shipyards furnishes little comfort to the girls who have met with less success, as the following letter from two girls of the Hippodrome circuit shows:

"Editor of the Oregonian—Dear Sir: We have been forced out of work by this terrible epidemic, and, while Ackerman & Harris ave been good enough to advance I. O. U.s to any of us that need it, we are still obliged to pay for these later; therefore, this enforced idleness is a total loss to us. If we were in our own home towns we could find employment more easily or live at home, where we would be under no expense. The boys in our show (Hippodrome) are all working at the shipyards. The girls have been unable to secure suitable employment. We are sure if you would make this known to the public through your paper, some concern could find a means to relieve the situation. We do not want charity; we simply wish to take advantage of the Golden Rule. Yours truly,

"MARGARET NORELLI,
"Rialto Quartet.
"LOUISE MACK,
"Hamlin and Mack."

MEN ARE BEING EXAMINED

Candidates for Central Officers' Training Schools Are 175.

UNIVERSITY OF OREGON, Eugene, Oct. 26.—(Special.)—Colonel W. H. C. Bowen, commanding officer of the Students' Army Training Corps here, today started the examinations of the 175 men of the State Officers' Training Schools.

Colonel Bowen will interview candidates for infantry and machine gun. Alma D. Katz, representative of the Military Training Camps Association, will be in Eugene Tuesday to confer with men interested in field artillery. Applicants for infantry will go to Camp Fremont, California, or to Camp McArthur, near Waco, Texas.

Be a Joy-Walker, "Gets-It" for Corns

2 Drops, 2 Seconds—Corn Is Doomed!

When you almost die with your shoes on and corns make you almost walk sideways to get away from the pain, take a vacation for a minute or two and apply 2 or 3 drops of the world's magic and only gen-

"My Corns Peel Clean Off, With 'Gets-It'"!

uine corn-peeler. "Gets-It." Then, and then only, will you be sure that your corn will loosen from your toe so that you can peel it right off gloriously easy with your fingers. Take no chances of continued pain and soreness—why use greasy, irritating salves, plasters that shift and press into the "quick," razors and "diggers" that make corns bleed and also grow faster? Use painless, easy, always sure "Gets-It." There's only one like it in the world—that's "Gets-It." Millions have tried and O. K.'d it for years. It never fails.

"Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'f'd by E. Lawrence & Co., Chicago, Ill. Sold in Portland and recommended as the world's best corn remedy by Owl Drug Co., 21 stores on the Pacific Coast. —Adv.

CATARRH

is now easily overcome by using an antiseptic oil spray, which absorbs and dislodges the hard web-like mucous membrane of throat and nose. Quick relief is always obtained by using the McKenzie Catarrh Spray. The price complete, with special atomizer, is only $2.00. We pay the postage on this and all other drug orders.

LAUE-DAVIS DRUG CO.
Truss Experts, Dept. 3.
Portland, Oregon.

Gives Strength to Combat Illness

In affections of the throat and lungs, ECKMAN'S ALTERATIVE has often been found to be very beneficial by reason of its tonic in health-building properties. One of its active ingredients is calcium (a lime salt), so combined as to be readily assimilated. Twenty years' successful use.

50c and $1.50 Bottles at all druggists or from manufacturer, postpaid.

PRUNE CROP 6,000 TONS

CLARKE COUNTY FRUIT NEARLY ALL FOR GOVERNMENT.

Only Large Sizes to Go to Commercial Trade; Eastern Buyers Eager for Surplus.

VANCOUVER, Wash., Oct. 26.—(Special.)—The prune crop in Clarke County this year will be over 12,000,000 pounds, it is estimated, and the Government will get practically all except those that run from 30 to 40 to the pound, for use in the Army and Navy and overseas. The 30-40s will be the only ones released for commercial trade in this country, and buyers in New York, Boston, Chicago and other Eastern cities are eger to buy all of these at the price fixed by the Government. In ordinary years there might be competition in buying the 30-40s, as they are larger and more desirable, but this year the price is set.

The prune crop this year is the greatest crop that has ever been saved. Weather conditions were ideal for harvesting, as it did not rain to speak of during the entire picking season.

In 1906 there may have been more prunes on the trees at picking time, but not more than 25 per cent of these were saved on account of continual rains, which rotted the fruit.

The Government this year prohibited the shipping of prunes just as the season opened, so the packers could not accept any more from the growers until the survey could be made so that it could tell how many would be needed. That was just completed and the first prunes were shipped yesterday. However, the process of shipping this year will be slow, as the Government has not been ready to receive the goods.

There will be no fancy facing of prunes this year, as the Government holds this would be unnecessary labor and expense, and that the prunes would taste just as well if packed in a box without facing.

AID GIVEN JUDGE WEBSTER

Congressman John F. Miller to Take Part in Campaign.

SPOKANE, Wash., Oct. 26.—(Special.)—Congressman John F. Miller, of Seattle, will be in Spokane the first of the week and will aid in the campaign here for the election of Judge Webster for Congress and the rest of the Republican ticket, says a report from Washington. He expects to spend several days in this Congressional district, then will go to the Coast, where he is a candidate for re-election.

The Republican Congressional campaign committee reports that it has contributed $1000 this month, in two payments of $500 each, to aid the candidacy of J. Stanley Webster, Republican candidate for Congress in the Fifth District.

Rev. J. H. Leiper 1753 Haven St.

Says D. D. D. Healed Him of Skin Disease—It Will You, Too.

For about fifteen years I had been afflicted with eczema and had tried many remedies to very little purpose and no cure. Somewhat in desperation I went into a drug store and asked the druggist if he had any remedy for that most annoying disease. He told me the story of a friend of his who had been similarly afflicted but, according to his description, far worse than I and who had been completely cured by D. D. D. The druggist advised me to try a bottle and if no benefit resulted from its use to return the empty bottle and money would be refunded.

I was soon convinced, before the bottle was half empty, that I had at last found medicine that was not a deception. I persevered until the third bottle was opened and partly used. This was in the third month after I had begun its use. I have a little left of the third bottle and am entirely cured of the eczema, and for seven months have had no sign of its return.

The annoyance was so great and so long continued, and the cure so complete, that I feel it my duty to make known the above facts to the public without money and without price that others similarly afflicted may make trial of this remedy that has given me such entire relief. I send this statement to the authors of this medicine that they may use it in extending the knowledge of the remedy D. D. D.

(Rev.) J. H. Leiper.

D. D. D., the liquid wash, has become a household word. It has proved itself a remarkable remedy. If you are a sufferer from skin diseases, this remedy **will not disappoint** you. It has stood the test and today is the master preparation for all skin diseases.

EMMERATTA LAWSON DEAD

Walla Walla Woman Resident of West Since Year 1883.

WALLA WALLA, Wash., Oct. 26.—(Special.)—Mrs. Emmeratta Lawson, aged 65, died here today following an operation two weeks ago. She was the wife of F. M. Lawson and was born in Indiana in 1853. With her husband and children she came to Walla Walla in 1883, and they made their home here ever since, with the exception of a few years spent in The Dalles, Or. She was a member of the Christian Church.

Besides her husband, she leaves six children—Mrs. S. R. Kelly, of Wallace, Idaho; C. E. Lawson, of Condon, Or.; Mrs. Cress Cochran, of Walla Walla; Mrs. H. C. Loveless, of Walla Walla; Arthur Lawson, Camp Lewis, and Mrs. Terry Johnson, of Salt Lake City.

Cove Has First Snowfall.

COVE, Or., Oct. 26.—(Special)—The first snowfall of the season came on Thursday night and covered Mount Fanny and extended quite a distance into the town. It is fair to augur from this timely beginning a normal Winter season for the Cove country.

Woodburn Board Claims Record.

WOODBURN, Or., Oct. 26.—(Special.)—Local draft board No. 2, of Woodburn, sent out its questionnaires for men outside the ages of 19 to 36 just a week ago today, and thus challenges the record claimed for local draft board No. 3, of Portland, which sent out its questionnaires of this class today, and for so doing claimed the record of being first in Oregon.

MAIL CARRIER ARRESTED

Echo Government Employe Charged With Robbing Letters.

PENDLETON, Or., Oct. 26.—(Special.)—W. K. McFaul, mailcarrier at Echo, has been placed under arrest by Postal Inspector H. F. Peacock and is in jail here under $2000 bond charged with robbing the United States mail.

It is alleged that McFaul secured money orders, checks and cash to the extent of $200 by opening leters in which they were contained and appropriating them to his own use.

2 DAYS LEFT

Before We Move to Our New Home

The Bush & Lane Building

Corner Broadway and Alder Street

The sale of used and discontinued style pianos at our old store is fast closing. Only a few days more, then a complete stock of brand-new pianos and players will be on display in our new home. We have purposely reduced certain pianos and player pianos in order that they be sold before we move. (Note: Bush & Lane Piano Co. are builders of standard guaranteed pianos only.)

250 MILLION TO BE RAISED

Wilson Approves Increase of Amount to Be Raised for War Work.

CHICAGO, Oct. 26.—President Wilson has approved an increase in the amount which the united war work campaign will seek of nearly 50 per cent, and the organizations involved will ask the country to contribute $250,000,000 in the week of November 11, said John R. Mott, director of the campaign, in a statement before a conference of workers from 14 states today.

Dr. Mott said he obtained this indorsement only a few days ago, and then explained why the increase was considered necessary.

French Rancher Shows Patriotism.

COVE, Or., Oct. 26.—(Special.)—Peter Goyette, with a grain ranch four miles out of Cove, gallantly upholds the patriotic reputation of his native France and his American citizenship by investing the entire proceeds of his grain sales in liberty bonds—$7000 last year and about $10,000 this season.

Read What PERUNA Has Done for Me

If My Friends Complain I Recommend PERUNA

Mrs. Albert Huet, 264 Hackmatack St., South Manchester, Conn., writes:

"I had catarrh of the stomach, bowels and liver. I had all the doctors of South Manchester and also a specialist from Hartford, Conn., but sad to say in the end I was taken to my bed entirely. **Today I am almost ashamed to go around to my friends.** I gained so much in weight, from 96 pounds to 120, which is enormous from the condition I was in. It is a year since then, but words of praise for Peruna were on my lips daily to friends, who have taken my advice and are also benefited.

I wish you could understand my feeling toward your life saver, Peruna. If I need a little cleansing, it's Peruna. If my friends complain, I prescribe Peruna, like a good old doctor a safe medicine. **Do not forget to publish my name in full for others' benefit.** I have taken Peruna and also Manalin, and today I can say, **thank God for a good stomach and appetite.** Thanks to Peruna once more. I work in a mill and at home, and work also at night, and still I get stronger all the time."

Those who object to liquid medicines can secure Peruna tablets.

PAINS AND ACHES YIELD QUICKLY TO SLOAN'S LINIMENT

Are you tormented by Neuralgia, Lumbago, Sciatica or any of those aches that require a counter-irritant? Then let the soothing, warming application of Sloan's Liniment stop the pain by drawing the blood away from the congested part.

It is the pressure on the nerves by the blood rushing to the inflamed muscle or joint that makes you ache. So when Sloan's Liniment relieves the swollen blood vessels by setting up a counter-irritant on the surface, the circulation is equalized, sympathetic nerves all soothed and soreness or lameness disappears.

Sloan's Liniment is probably the counter-irritant most widely used to overcome painful inflammation in cases of neuralgia, sore muscles, wrenched joints, strains, bruises, gout. Rubbing is not required. This clear, clean liquid is easily applied as it does not stain the skin.

Generous size bottles at your druggists. 30c, 60c, $1.20.

GIANT FARM POWDERS
STUMPING — AGRICULTURAL

Uniformity is another word for economy and safety. When the same things happen with each pound of Giant Farm Powder, you know not only how much to use, but what results to expect and how to handle the explosive.

Giant Farm Powders are surer, safer and more economical because our tests guarantee every pound. We maintain our own completely equipped chemical division to inspect Giant Farm Powders during every process of manufacture. Absolute uniformity means absolute dependability. Like results always obtained under like conditions make western farmers prefer Giant Farm Powders.

"Giant Powder is the most satisfactory," says John Zurr, Santa Rosa, Cal. "I account for this because Giant Powder is made with the utmost care."

Caution: Be sure you get the genuine. That other explosives are often called "Giant Powder" indicates the high quality of the original. Look for the Giant trade-mark on every case.

The coupon (or a postal mentioning this paper) will bring you the big book "Better Farming." Tells how to remove stumps, prepare tree beds, and do all kinds of farm work cheaper and better. Write for it now.
