### PEOPLE YOU ALL KNOW.

G. E. Stewart spent yesterday in Portland.

Mrs. Chas. Adams was a passenger on the Flyer this morning bound for the Seaside.

Miss Nellie O'Connell, of Chicago, is in the city, the guest of her aunt, Mrs. N. B. Sinnott.

Fred Tielsen, came up from Portland on last evening's train, returning this morning.

Miss Alma Schmidt returned Saturday night from an extended visit with the family of Mrs. R. Roscoe, in Victoria.

Miss Catharine Martin left on Friday for California, where she will spend the remainder of her vacation with relatives.

Mr. and Mrs. J. S. Schenck and Mrs. Alice Sheldon returned home Saturday, after a two-weeks stay at Bingham Springs.

Mrs. H. Glenn returned to Seaview today. She was accompanied by Miss Jennie Young, who will spend her vacation with the Misses Glenn.

Miss Beulah Sterling came up from Portland Saturday evening to spend Sunday with her mother and sister before their departure for the East.

Mrs. Anna Stevenson, nee Roberts, of Fulton, is spending a short time visiting with her mother, brothers and sisters at the home place on Dry Hollow.

Archie Barnett and his sister, Miss Maie, came up from Portland Saturday. Archie will return to Portland, while his sister will remain in The Dalles.

Miss Hattie Hollister, of Portland, is in the city visiting her cousin, Bert Hollister, for a few days. She is accompanied by Miss Maude Sutherland.

James DeMoss, father of the famous DeMoss family, is in The Dalles on business today. The remainder of the family are now giving concerts in Omaha, Nebraska.

Judge and Mrs. G. C. Blakeley went down to Portland on the boat yesterday. Mrs. Blakeley will visit her parents there, while Mr. Blakeley makes a trip to Astoria.

T. P. Crun has returned from his camping trip to Wind river. During his stay he received a fall which lamed him somewhat, but he is now able to be about again.

A. MacAdam, who has spent his vacation of ten days at Long Beach, returned Saturday night, and has resumed his duties in the dry goods department at Pease & Mays' store.

## NOTICE.

Notice is hereby given that the city council of Dalles City has determined to establish a sewer system for all that portion of said city lying below the bluff and east of Lincoln street, and has further determined that the cost of such sewer system shall be assessed against the property benefited thereby.

Said sewer system is to be of terra cotta pipe and the extent and location thereof to be as follows:

The main line of said sewer system shall extend from the low water line of the Columbia river, where the east margin of the mouth of Mill creek at said low water strikes said river; thence along the east bank of said Mill creek 650 feet to a stake under the north trestle of the Oregon Railroad & Navigation Company's railroad, thence at a right deflection of 10 degrees and 10 minutes from the course last pursued [illegible] feet to a stake 9-15-100 feet north of the northwest corner of the stone wall bounding the E. M. Wilson property; thence at a left deflection from the course just described, 76 degrees and 31 minutes 128 feet to a point on the west line of Union street, 156 feet north of Second street; thence crossing Union street to the center of the alley between Second and Main streets, thence along the center of said alley, from Union to Laughlin street; thence continuing in a straight line on the same course [illegible] street, to a point on the east line of [illegible] 128 feet north of Second street; thence continuing in a straight line on the same course [illegible] block 8, Laughlin's addition to Dalles City [illegible] feet, to Jefferson street, on a line [illegible] feet north and parallel to Second street; thence continuing on said straight line, in the same course, 10 feet into Jefferson street to a point 10 [illegible] feet of the west line of Jefferson street and 1[illegible] feet north of Second street. Thence at a left deflection from the line last described, 22 degrees and 2[illegible] minutes, 81-5-100 feet to a stake 2 feet west of the east line of Jefferson street; thence at a right deflection from the line last described 23 degrees and 15 minutes, 116-17-100 feet to a stake; thence at a right deflection from the line last described 27 degrees and 29 minutes 110-4-100 feet to a stake 17-82-100 feet from the southeast corner of the barn fence west of the O. R. & N. Co.'s depot; thence at a left deflection from said line 14 degrees and 24 minutes, 465-9-10 feet to a point on the west line of Monroe street 120 feet north of Second street and 5-7-100 feet north of the northwest corner of Moody's brick warehouse; thence continuing in a straight line on the course last described 1[illegible]-37-100 feet to a point 6 feet north of the northeast corner of Moody's wooden warehouse 122-9-10 feet north of Second street and 70 feet east of Monroe street; thence at a right deflection from the last line 74-24, 260-26-100 feet, to a stake in Taylor street, 69-6-10 feet north of Second street and 46-75-100 feet west of the west end of the Wasco warehouse.

A branch of said sewer system shall connect with the main line in Union street, 20 feet from the west line of said street, at a point 128 feet north of Second street, and shall run along said Union street 20 feet east of the west line thereof, to a point 20 feet south of the north line of Tenth street.

Another branch line of said sewer system shall commence in the center of the alley between Second and Third streets, at a point 40 feet west of the east line of Lincoln street, and run thence along the center of said alley to a point 20 feet east of the east line of Court street, connecting with the branch of said sewer system running up Union street hereinbefore described, from the east and west, by convenient curves of about a twenty-foot radius.

Also a branch of said sewer system commencing in the center of the alley between Second and Third streets, on the east line of Washington street, and running thence easterly along the center of said alley, to a point where the center of said alley intersects with the present center of Max Vogt & Co., where it crosses said alley. Thence northerly and easterly along the line of said sewer as it is now located, to the point where said sewer intersects the main line of the sewer hereinbefore described, at a point where the main line of said sewer crosses Federal street, between Second and Third.

Also a branch line of said sewer system, commencing at a point in the center of said alley between Second and Third streets, 100 feet east of Federal street, and running thence along the center of said alley to the west line of Laughlin street; and thence connecting with the Laughlin [illegible] by a left curve of about a 20-foot radius, [illegible] Laughlin street.

Also a branch line of said sewer system, commencing at a point on the east line of Monroe street [illegible] of the south line of Third street, [illegible] west, parallel to the [illegible] sewer and 20 feet from said [illegible] feet west of the east line of Monroe street; thence curving to the right with a curve of about a 20-foot radius, to a point in said Monroe street 20 feet from the north line of Second street and 20 feet from the west line of said Madison street; thence northerly along said Madison street on a line parallel with the center line of said street, to a point 20 feet from the west line of said street, and 20 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a 20-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction along the center line of said alley to a point 20 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a 20-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street; thence deflecting to the right by a curve of about a twenty-foot radius, to a point opposite the center line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction parallel with the west line of Monroe street, and 20 feet therefrom, to within 20 feet of the main line of said sewer system hereinbefore described; thence curving to the left with a radius of about 20 feet, to connect with said main line.

Also a branch line of said sewer system, commencing on the west line of Jefferson street, 20 feet north of the south line of Fourth street; thence running westerly parallel with the said north line of Fourth street, to a point 20 feet west of the east line of Laughlin street; thence by a curve to the right of about twenty feet radius, to a point 20 feet east of the west line of Laughlin street and 20 feet south of the north line of Fourth street; thence northerly, parallel with the west line of Laughlin street, to connect with the main line of said sewer system hereinbefore described, by a curve to the left of about twenty feet radius, where said main line of said sewer system crosses Laughlin street at the alley between Second and Main Streets.

Also a branch line of said sewer system, commencing at a point 120 feet south of the north line of Fifth street and 20 feet east of the west line of Liberty street; thence along said Liberty street parallel with said west line of said street, in a northerly direction, to connect with the branch of sewer system hereinbefore described, running in the alley between Second and Third streets, by a convenient curve to the right, where said alley sewer crosses Liberty street.

Also a branch line of said sewer system, commencing in the center of the alley between Third and Fourth streets, [illegible] feet west of Liberty st., and running along the center of said alley to a point 200 feet east of said Liberty street, and connecting with the branch of said sewer system in Liberty street, along the east and west, by convenient curves of about a 20 foot radius, at the point where said alley crosses Liberty street.

Also a branch line of said sewer system, commencing in the center of the alley between Third and Fourth streets, [illegible] feet east of Court street, and thence running along the center of said alley in a westerly direction to a point 20 feet west of the east line of Union street; thence by a curve to the right of about a 20-foot radius, to connect with the Union street branch of said sewer system.

Also a branch of said sewer system, commencing in the center of the alley between Third and Fourth streets, at a point 50 feet east of the east line of Washington street, and running thence along the center of said alley to a point 200 feet east of Jefferson street, and connecting with the branch of said sewer system running along Laughlin street, by convenient curves of about 20-feet radius, at a point where said alley crosses said Laughlin street.

Also a branch line of said sewer system, commencing at a point 20 feet north of the south line of Fourth street and 50 feet east of the east line of Washington street; running thence in an easterly direction parallel with said south line of Fourth street, to connect by a convenient curve to the left, of about a 20-foot radius, with the Laughlin-street branch of said sewer system, at the crossing of Fourth and Laughlin streets.

Also a branch line of said sewer system, commencing in the center of the alley (or Sixth st.) south of block 11, at a point where the west line of Washington street crosses said alley; thence westerly along the center of said alley to a point 38 feet west of the east line of Court street; thence by a convenient curve to the right of about 20 feet radius to a point 20 feet east of the west line of Court street; thence in a northerly direction parallel with the west line of Court street to the south line of Fourth street; thence by a curve to the left, of about a 20-foot radius, to a point on the west line of Court street, 20 feet north of the south line of Fourth street; thence westerly along Fourth street, parallel with the south line of said Fourth street, to a point 20 feet west of the east line of Union street; thence connecting by a convenient curve to the right, of about a 20-foot radius, with the branch line of said sewer system running along Union st.

Also a branch line of said sewer system, commencing at a point opposite the center of the alley between Fourth and Fifth streets, 20 feet east of the west line of Washington street, and running thence in a westerly direction along the center of said alley to a point 38 feet west of the east line of Court street; thence by a convenient curve to the right of about a 20-foot radius to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at a point 20 feet north of the south line of Fifth street, and 120 feet west of the west line of Court street, running thence in an easterly direction to the west line of Court street; thence by a curve to the left, of about a 20-foot radius, to intersect with the branch of said sewer system running on Court street at the crossing of said Fifth and Court streets.

Also a branch line of said sewer system, commencing at the center of the alley between Fourth and Fifth streets, at a point 200 feet east of the east line of Liberty street, running thence in a westerly direction along the line of the center of said alley, to a point 50 feet west of the east line of Liberty street; thence by a curve to the right of about a 20-foot radius, to connect with the Liberty-street branch of the said sewer system.

Also a branch line of said sewer system, commencing at the center of the alley north of Main street and 50 feet west of Washington st.; thence running along the center of said alley to a point 310 feet west of Union street; thence connecting with the main sewer system near the bank of Mill creek, by a curve to the right of about a 25-foot radius.

Also a branch line of said sewer system, commencing at a point in Fourth street, 250 feet west of the west line of Liberty street, and 20 feet north of the south line of Fourth street, running thence in an easterly direction along Fourth street, parallel with the south line of said street, to the west line of Liberty street; thence by a convenient curve to the left of about a 20-foot radius, to connect with the branch of said sewer system running up and down Liberty street, at the crossing of said Fourth and Liberty streets.

This notice is published by order of said City Council, made on August 5th, 1899.

NED H. GATES,
Recorder of Dalles City.

NERVITA MEDICAL CO.
Clinton & Jackson Sts., CHICAGO, ILL.
Sold by Blakeley & Houghton, The Dalles, Oregon.

## How About Your Title?

ARE YOU SURE it is all right? Remember it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real estate security, take no man' word, but insist upon knowing what the record shows regarding the title. An Abstract is as essential as a deed. Insist on having it. We have the only set of Abstract Books in the County. All work promptly executed and satisfaction guaranteed. If you have property to insure, give us a call. We are agents for four of the best fire insurance companies in the world. If you have property for sale, list it with us and we'll find a buyer.
