Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes down to the cause of the disease and forces it from the system.

I was afflicted with blood poison, and the best medals that me no good, though I took them regularly. In fact I seemed to get worse all the while. I took almost every available blood remedy, and they did not seem to reach the disease, and had the effect of weakening my system. I was discouraged for a season that I would never be cured. At the advice of a friend I took S. S. S., and began to improve. I continued the medicine and it cured me completely, building up my health and increasing my appetite. Although this was let years ago, I have never yet had a sign of the disease to return.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals.

Public Lands for Soldiers.

Representative Jones, of Washington, a chairman of a sub committee of the house committee on public lands, will report favorably to the house a bill extending the public land laws to the soldiers of the Spanish war, says the East Oregonian. Several bills looking to this purpose have been introduced in the house and all referred to the sub-committee of which Mr. Jones is the head. He has embodied the best features, all in one bill, which will be reported to the house with the sanction of the committee.

It provides that every soldier who enlisted for the Spanish war shall have credit upon a homestead claim equal to the amount of his service. Most of the measures as introduced provide that every soldier should have credit for a full two years, regardless of the term of his service.

The bill prepared by Representative Jones will give to every soldier who served any length of time under six months, six months' credit, and to those who served six months and less than twelve months, one year's credit. That is, every soldier, regular and volunteer, who may elect to take up a homestead, if he served over one year in the war with Spain, will only need to live on his homestead three years before making final proof. The bill also provides that widows and minor heirs of soldiers who died while in service, or as a result of service, shall receive the same credit as would have been allowed to the soldiers themselves.

Further, if a soldier died while in service, or as a result of his service, his widow or minor heirs will get the benefit of a full term of enlistment of two years credit upon the homestead claim.
