TRANSPORTATION AT A MINIMUM OF COST.

Do you realize that you can buy serviceable used cars for $200 and up? Oftentimes for less than that. Cars which can be used through the winter months to carry you to and from work—and from which you can get enjoyment over the week ends not obtainable any other way.

If you have a good car—just get out your pencil and paper and figure what you will actually save in wear and tear by not letting it be subjected to the winter rains, the smashed fenders and other losses incidental to use from now until spring.
