WHEAT VALUES ARE ELEVATED

Liberal Export Business and Smallness of European Stocks is Cause

CHICAGO, March 17.—Indications of liberal export business together with gossip about smallness of European stocks of breadstuffs did a good deal today to lift values in the wheat market here. The close was unsettled 2 cents to 3 3-8 cents net higher with May 1.38 1-2 to 1.38 3-4 and July 1.19 3-8 to 1.19 5-8. Corn gained 1 1-4 to 1 1-2 cents and oats 3-4 to 1 cent.

In the provisions the finish was unchanged to 27 cents higher.

Advances in the wheat market were especially rapid in the last part of the day as a result of reports that foreign purchasing included a considerable amount of new crop wheat for Germany.

Much attention was also given statements of a leading member of the Chicago board of trade who has just returned from an extended European trip and who expressed decidedly bullish views. Gossip current as to United States farmers pooling their wheat appeared also to be a factor in connection with the upward swing.

Confirmation of figures showing that total holdings of wheat in this country are materially below normal tended further to encourage general buying of wheat and to lift values, official announcement today of all country mill and elevator stocks being substantially the same as private estimates, which had recently been circulated. Higher quotations at Liverpool were likewise influential and in particular at the opening tended to send prices upward. Corn and oats reflected the action of wheat. In addition receipts of corn were small and fair export buying of corn was said to have taken place at the seaboard.

Provisions were weak early with hog values, but commission house buying later more than offset the declines.

Stock Exchange Trading Runs Beyond Million Mark

NEW YORK, March 17.—For the third consecutive session trading on the stock exchange today ran well beyond the million share mark, dealings again encompassing an unusual variety of issues.

The money market was the primary factor in the further promotion of bullish sentiment. On the exchange call loans fell from 3 1-2 to 3 per cent in the first hour and in private offerings such accommodations were obtained at 2 1-2 per cent.

Crucible Steel was only temporarily affected by the ommission of the common dividend, finishing at a slight gain, but Tidewater Oil broke sharply on the suspension of its dividend and several specialties were under pressure in anticipation of such action.

Outstanding features embraced United States Steel and the independent steel, notable Vanadium as well as Chandler motor, Anaconda Copper, Central Leather, Columbia Gas and Allied Chemical, the latter making a net gain of five points. Sales amounted to 1,225,000 shares.
