STOCK PRICES TURN BETTER

Gains in Active Shares Range from One to Seven Points on Exchange

NEW YORK, Nov. 28.—Stock prices took a decided turn for the better in today's dealings, gains in active shares ranging from 1 to nearly 7 points.

Much of the impetus for the rise was furnished by bear operators, who wished to remain covered over the holiday and by the renewed activity of pools which had ceased to function during the reaction which had spread over the better part of five weeks. The rapidity of the advance indicated that the decline in some quarters had been overdone.

Lower money rates, another new high for sterling exchange, a number of dividend resumptions and increases, and the publication of more favorable railroad October earnings reports all helped to create a better atmosphere, but it could hardly be said that the upward course of prices was governed by any or all of these.

With professional speculators in control, prices of lead have moved in seeming disregard of outside news developments.

Standard Oil shares took a prominent part in the advance. New Jersey gaining 7 points and California 3-8. Mexican Petroleum, very little of which is outstanding, jumped 13 points on a turnover of 150 shares. Pan-American issues were strong, rising more than 5 points each.

United States Steel, got up as high as 109 3-8 but reacted later to 100 3-8, a net gain of 1 3-8. Independent steels generally dragged behind the rest of the list on the upturn although Bethlehem B and Crucible closed at least a point higher. Equipments made good recovery.

Persistent, but unconfirmed reports that New York Central will be placed on a 7 per cent basis next month resulted in some good buying of that stock, which closed at 92 1-4, up 2 5-8. Moderate strength also developed in a number of other rail shares.

Sugars were strong, being helped by higher prices for the refined product. Sales totalled 978 000 shares.

Money rates were easier. Call money opened at 4 1-2 and eased off to 4. There was a fairly active demand for time money at 4 3-4 for all maturities with a few scattered loans being made on a five per cent basis.

Foreign exchanges wree irregular. Demand sterling got as high as 4.52 1-2, but reacted just under 4.52 later. French francs sold as low as 6.95. Canadian exchange was again at par.

BULL STRENGTH ON WHEAT MARKET

Export Business on Large Scale Indicated in Yesterday's Dealings

CHICAGO, Nov. 28.—Indications of export business on a large scale had a decided bullish effect on the wheat market today. Prices closed strong, 1 7-8 to 2 7-8 net higher, with May 1.16 to 1.16 1-8 and July 1.07 5-8 to 1.07 34. Corn gained 1 1-2 to 2 1-8 cents, and oats 3-4 to 1 and 1 1-8. In provisions the outcome varied from 2 cents declineto a like advance.

Foreign purchasing orders, which in some quarters were associated with French plans to seize the Ruhr region, gave the whenat market a softening tendency the moment trading began, and this tendency afterward received more and more momentum, the close being at almost the top figures of the day. In this connection, it was said a leading speculator on the bear side had abandoned his position and had bought heavily in order to even up his accounts.

Meanwhile, estimates were current that Europe had taken more than 1,500,000 bushels today in addition to 3,000,000 bushels the day before.

Bulls contended that navigation on the St. Lawrence would end within a week, and that total stocks of bonded and domestic wheat at the Atlantis seaboard and Gulf of Mexico and at Buffalo and on the lakes would be equal to only a couple of weeks requirements for Europe.
