The Washington-Oregon Corporation announces its willingness to accept the terms of the segregated franchises, and this means that mountain water will be circulating in Hillsboro mains before the rainy season sets in. This is very much better than bonding the city for a hundred thousand dollars to install a plant. Mr. Welch means business and his people will soon get busy at getting pure mountain water into the faucets of the county seat. The council, in segregating the water and light franchises did a work for the city that should be, and is, appreciated.

The weakness of Mr. Taft in a preferential primary was shown Tuesday, when the Roosevelt delegates carried practically 50,000 more votes in Ohio, Taft's home state. Roosevelt and his managers now claim they will not only dominate the National republican convention, but that the ex-president will be nominated on the first ballot. Whatever may be one's conclusions as to merit, it stands out that Roosevelt is much stronger in his own party than Taft. This is the first time that a candidate for re-election to a second term has lost his own state in the primaries.
