Portland, Oregon

Are You All There?
Chemical analysis of the human body shows that it is composed of the following elements: Oxygen, Carbon, Hydrogen, Nitrogen, Calcium, Phosphorus, Potassium Sulphur, Sodium Chloride, Magnesium, Iron, Iodine, Fluorine, Silicon, Zinc, Manganese.
You supply your body with these chemical elements through the food you eat, the air you breathe and the water you drink.
Good health depends much upon the chemistry of the body, as thus supplied and maintained. Many refined foods in common use today are lacking to an alarming extent in these vital and health promoting properties, and this deficiency is responsible for many chronic ailments.
Pacific Health-Ore
is rich in the majority of these elements and its use has accomplished marvelous results in restoring health. Give Nature a chance—you'll be surprised at her response.

KEEPS FIVE-CENT CHECK

ST. PAUL—For 44 years the Northern Pacific railway's checking account has been off five cents. J. H. Wise, then a brakeman, got a check for that amount to make up a deficiency in his pay, and framed it.

PICTURES OF PAST

DULUTH, Minn.—A pocket album carried by his father in the Civil war has been given to E. G. Chapman by J. S. Putman of Omaha, who found it among old soldiers' effects.
