Veterans Urged Check Policies

Returned servicemen who held commercial life insurance policies during their terms of military service should check with their insurance agents to make sure that all provisions of their policies are still in force, the state department of veterans' affairs advised this week.

Purpose of such a checkup is this:

1. If the veteran's insurance policy contained special benefit provisions—double indemnity, waiver of premium, or disability income—the policy may have stipulated that such provisions would be terminated or suspended automatically because of military service. In such cases, the veteran should make application to have any terminated or suspended provisions restored.

2. Veterans who served in the armed forces before September 2, 1945, but failed to report their status, may have paid premiums for provisions that are no longer in force. By reporting to their insurance agents, it should be possible to obtain refunds for such overpayments.

3. According to some contracts, reinstatement of suspended provisions will not be made until the veteran notifies the company that he has been discharged from the service.

Officials of the department of veterans' affairs said that some insurance companies are now sending out notices to this effect, to ex-servicemen holding commercial policies.

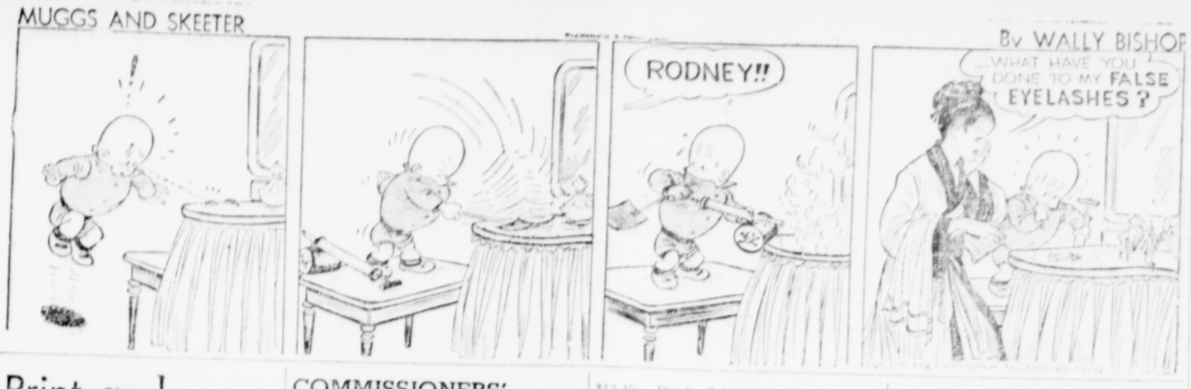
California Spud Growers Want Oregon Seed Stock

Oregon White Rose variety potato seedstock, if relatively free from virus disease, is in great demand by the Kern county potato growers of California, reports J. R. McCambridge, extension specialist in seed certification at Oregon State college, after visiting that area.

The growers in Kern county prefer the generally greater vigor of White Rose seedstock from Oregon over that of many of the other seed producing states. Field employees of the association are in Oregon and other seed producing states each season buying the best lots of White Rose potatoes available. The California growers are not interested so much in producing seedstock as in purchasing seed to raise commercial potatoes for the early market, McCambridge said. This year they have 61,550 acres of early potatoes.

The Kern growers are becoming disease conscious due to the increased yields from clean seedstock, and are making every effort to purchase only the best, McCambridge pointed out. The production of clean potato seedstock would almost insure a ready market for White Rose potatoes with these growers.

MUGGS AND SKEETER



Print and Plain Twosome

Attractive summer frock.

By VERA WINSTON

FOR THE WOMAN who, while she adores prints, somehow feels too large and conspicuous in them, one shop is starring the type of frock depicted here. It is a one-piecer with a two piece look. The blouse top made with long, loose sleeves and a casual open neck with classic collar, is of flower-sprigged white crepe. The skirt is of black crepe built on to a little hip yoke that ties center front. There are gathers at the center front and the back is gored.

Uncle Sam Says

About this time of year, we hunger for a sight of green sprouts and the first signs of a plentiful fall crop. I am visiting my nephew, Farmer John, in Iowa. John's seeds produce the golden corn we all love. John is also planting financial seeds. These seeds are United States Savings Bonds. Savings Bonds grow to golden hue. Every city worker also can plant and nurture these seeds.

U. S. Treasury Department

The War Assets Administration has turned over to the Veterans Administration approximately one million surplus textbooks for use of GI college students.

RADIO WAVE

This amazing new process is the biggest improvement ever in permanent waving. Truly scientific, it is based entirely upon the chemical analysis of the hair—not upon texture, or the elasticity so much hair lacks.

AUCTION SALE

at the

Tualatin Valley Auction Exchange

3 miles East of Hillsboro on Portland Highway

SATURDAY, June 8 - 12:30 p. m.

As this is a large sale, we are starting one-half hour early—at 12:30 p. m.

Herman Hornecker has consigned his entire herd of

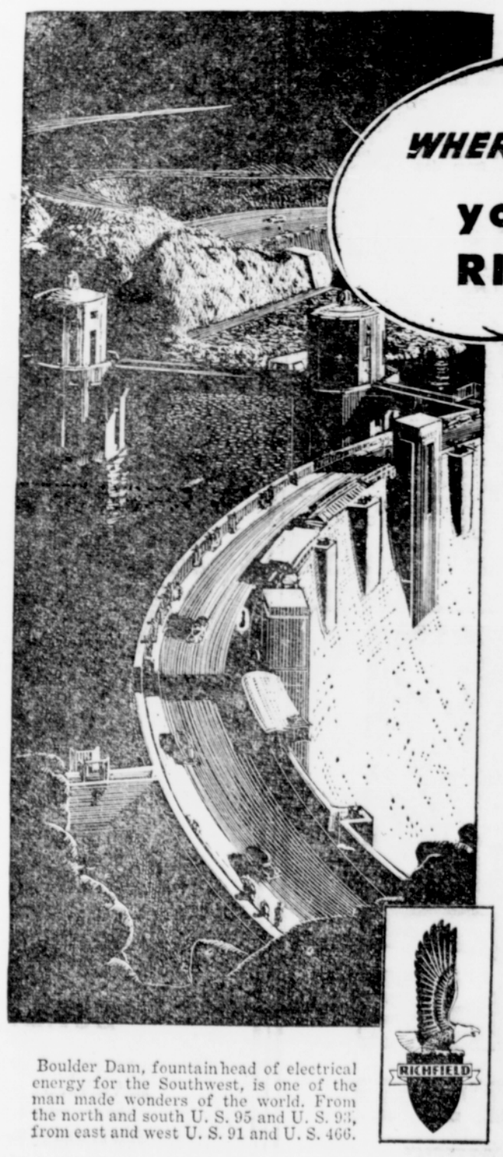
12 HEAD OF CATTLE AT THIS SALE

5 Guernsey and Jersey milk cows, 3 bred heifers, 4 yearling heifers. These cows are all double-tested and are in good condition.

Pre-war davenport and chair
Daveno, dishes, cooking utensils
Myers pump, pressure tank
Trailer, Clipper manning mill
Saw mandrel, table and saw
20 feet manila hay rope
Oliver walking plow
Cedar fence posts
30 sacks No. 2 potatoes
Home-made tractor and disc
Lots of pipe, pulleys and miscellaneous articles

NOTICE—Most of our consignments for these sales are consigned on Friday and Saturday which is too late to advertise. Our commission is 5% on livestock and 10% on all other items. The owner is allowed one protective bid and no charge is made if not sold. Bring us anything you have for sale.

Carl W. Reed and Wesley Price, Managers and Auctioneers



Boulder Dam, fountainhead of electrical energy for the Southwest, is one of the man made wonders of the world. From the north and south U. S. 95 and U. S. 93, from east and west U. S. 91 and U. S. 466.

WHEREVER YOU GO...

you'll find RICHFIELD

RICHFIELD has climaxed more than a quarter century of refining triumphs in today's RICHFIELD gasolines. These new fuels have been fortified with aviation gasoline compounds that guarantee quick starting, smooth pick-up and a steady flow of power regardless of where you go. You'll cruise along coastal highways with effortless ease, climb sky-high mountain roads or flatten out for a desert run with power to spare. Your foot dictates the only change in pace when your engine is powered with the new 1946 RICHFIELD gasoline.
