Putnam Explains Need of Finances

district in the way of financing to give the same educational opportunities. Many such discrepancies exist throughout the state, asserted the speaker, who said he knew of one district that requires over 100 mill tax to support its schools because of low valuation. The same discrepancies in values also exist as between counties in ability to support education, he said.

Total cost of elementary and high schools in Oregon is estimated at $31,925,000 with over 50 per cent of this cost handled through local property taxes, according to Superintendent Putnam. The state aid for schools from surplus income taxes must be considered temporary and as soon as this shrinks it must go on property which would make property bear about 35 per cent of school support, it was pointed out. The schools, under present conditions, would have no access to any other type of tax than property unless a new course is found.

Elementary school enrollment is increasing rapidly, asserted Putnam, who said enrollment in 1935 was 203,000 and is expected to reach 283,000 by 1949. It is impossible, he said, to have more pupils without having increased costs.

Leslie Scott, state treasurer, will be the speaker next Tuesday, according to announcement by Jerry Fowler of the forum committee. No luncheon will be held on November 5 because of its being election day.

Secretary Ed L. Moore announced two new members, Newsham Floral company, O. W. Brandow, manager, and Rev. O. S. Whiteside, vicar of All Saints Episcopal church.

Representatives of Beaverton Rebekah Lodge were present to announce a turkey dinner to be held at Aloha Grange hall November 2 and to urge attendance of local people. They sold tickets.

Greeters committee for next Tuesday includes S. W. Melhuish, H. L. MacKenzie and Mervin Brink. Serving Tuesday were Russell Ide, Reid Cottrell and Jack Foster.

Portland prep teams such as Central Catholic and Columbia Prep in the northern half of district 3 with Tualatin - Yamhill valley league and Columbia county teams. It was pointed out that the Portland independents play few games against teams in this part of the district and yet only games within the district sub-division count in the play-offs.

Hubert Armstrong, superintendent of schools at Newberg and a member of the committee for selecting the northern part of district 3, winner, said this will be decided at a meeting in Forest Grove at 3 p. m. on November 18. Teams which have a claim to the title will submit their scores and the winner is to be decided by ballot.

Haphazard Financing Means Haphazard Schools

Oregon schools MUST have steady, dependable incomes to make long-range planning possible. Local school districts are experiencing a hand-to-mouth existence. Rising costs have forced 86% of the school districts to levy additional local taxes for *minimum* budget needs. Put Oregon schools on a sound financial basis.

While in Swaying Motion!

AUTO-ROCK

- Opens up spring leaves and frees shackles.
- Assures perfect lubrication of knee-action unit and entire front system.
- Detects squeaks, rattles and defects. Insures 100% lubrication.

The Mobil people developed the Process, and we are the first in Hillsboro to offer you Auto-Rock!

WE—Pull the spring leaves back into their natural curl—we call it "Temporary Rearching."

WE—Put the proper lubricants where the ACTUAL WEAR takes place — the highest points of friction.

WE—Permit 100% lubrication, apply grease while the car is in motion and while the weight of the body is on the AUTO-ROCK.

WE—Spread spring leaves even inside the covers to actually put lubricants between the leaves—not just smear on the outside.

WE—Locate that HIDDEN BODY SQUEAK; we detect impaired parts.

WE—Lubricate "Knee-Action" cars. See it work, it's perfect while the parts are all in motion—"floating action."

WE—Lubricate and free bearings even in WINTER so snow and water won't rust them—also FORCE OLD LUBRICANT OUT and FRESH LUBRICANT IN.
