DOES NOT HARM THE HEART

NRA

"DIVING TAKES HEALTHY NERVES— AND SO DOES MY OFFICE JOB—"

Miss Elizabeth Harben, Secretary, Garden City, L. I., *says:*

"I know that deep-sea diving calls for healthy nerves. But, believe me, you can also feel plenty of real nerve strain being a secretary to a busy office executive! Telephones, callers, dictation, and a million other demands all take their toll. As to smoking—I smoke a great deal, but I'm careful in the choice of my cigarettes. I prefer Camels. They don't make my nerves jumpy, and I like their flavor better."

Frank Crilley, Champion Deep-Sea Diver, *says:*

"Deep down under 300 feet of water, working feverishly under terrific pressure—no place for a nervous man! A diver's nerves must *always* be in perfect condition. I smoke Camels and have smoked them for years. They are a milder cigarette and they taste better. They never upset my nervous system."

How Are YOUR Nerves?

Do *your* responsibilities give you that "dragged through a knothole" feeling? Do you come home tired, irritable, with nerves all askew?

Whatever your job or place in life, healthy nerves are worth any effort. Check up on your habits—your eating, your sleeping, your recreation—and do not overlook the subject of smoking. Turn to Camels, for the sake of your nerves.

Any impartial leaf-tobacco expert will tell you that—

Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand.

Camel pays millions more—for your enjoyment. And how much better Camels taste—mild, rich in flavor, delightful. They never get on your nerves . . . never tire your taste.
