Bids Called for Barnes School

Sealed bids for construction of a $25,000 four-room addition to the Barnes grade school in Washington county elementary school district 57 were called for last week by the board, according to Chairman M. R. Bennett. Bids, to be received at the office of Stokes & Allyn, Portland architects, will be opened at 2 p. m. August 27.

The addition is to include four classrooms and a full basement, to house kitchen, dining room and play room. Board members said this week they hoped construction would be completed by late October to make room for an expected 100 per cent increase in enrollment in the district. Enrollment in the present 2-room tile school was 48 last year. A big increase is expected from the Cedar Hills area.

Plans, specifications and form of contract documents may be obtained at the architects' office in Portland. Members of the school board, in addition to Bennett, are Henry R. Johnson and Ross Whisman, both of the Barnes district.

War Service Dates For GI Benefits Set

The far-reaching importance to ex-GIs of this area of the July 25 date recently designated as ending World War II service for establishing eligibility for most war veterans' benefits was stressed this week by Thomas M. Craig, veterans administration contact representative in this area.

For purposes of education and training, loan guarantees and readjustment allowances provided in the GI Bill, and for vocational rehabilitation of disabled veterans under Public Law 16, the period considered war service thus becomes September 16, 1940, through July 25, 1947.

Craig will not be in Hillsboro on August 21 or 28, but will continue his weekly visits to the city hall here each Thursday starting September 4.

Area Rent Advisory Board Appointed

The board was appointed from recommendation made by Governor Earl Snell in accordance with the Housing and Rent Act of 1947, which became effective July 1. The board will have jurisdiction over the Portland area: Multnomah, Washington, Clackamas, Tillamook and Clatsop counties.

Look.. SEE THE CASE FARM TRUCK

Low Loading

Short Turning

● This Case farm truck carries the box low, yet has high clearance under the axles. On short turns it lifts the box a little to allow a shorter turn. Steering links are protected, up behind front axle. Drop-center wheels, tapered roller bearings, pressure lubrication are all the same as in a modern car. It's the handiest, sturdiest thing we've seen for farm hauling. Let us show it to you.
