Across the Rockies in a Ford V-8

MORE THAN 18 MILES PER GALLON ON TRIP OVER MOUNTAINS

Red Rock, Oklahoma
June 19, 1936

Doenges Motor Company
Tonkawa, Oklahoma

Gentlemen:

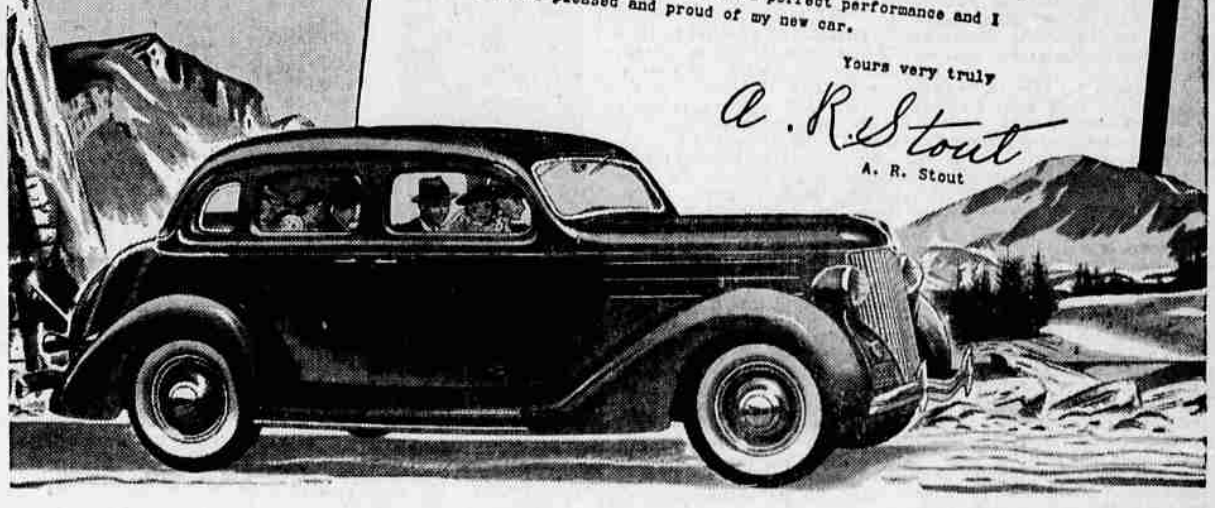
I have just returned from a two weeks' trip in which I covered more than 4800 miles and I am so well pleased with the performance and economy of my new Ford V-8 that I want to tell you about it.

Our car, a Fordor Sedan with Trunk, accommodated seven of us on this trip which took us through the mountains of Colorado, Wyoming and into Washington State. On the return trip there were nine of us and we came back through Salt Lake City and Denver.

On this trip we passed over six of the Rocky Mountain Passes and we marveled at the ease at which the car took these steep grades and the rare intervals at which we bought gasoline, for upon our return, by dividing the total miles traveled by the total number of gallons of gasoline bought, we found that we had averaged over 18 miles to the gallon for the entire trip which I think is unusually good considering the load we carried and the roads covered.

The car has given us perfect performance and I am well pleased and proud of my new car.

Yours very truly
A. R. Stout
A. R. Stout



IF YOU want facts about the Ford V-8, talk to Ford owners. Their experience and enthusiasm mean more than anything we could say. ★ The letter above is typical. 4800 miles across the mountains with seven and nine passengers. More than 18 miles to the gallon of gasoline! ★ The brilliant performance of the Ford V-8, its abundant power and quick pick-up, are coupled with economy.

Prove Ford V-8 Economy Yourself

Your Ford dealer is prepared to show you on a non-stop run that the Ford V-8 will give 24 miles to the gallon at 20 MPH, 22 miles at 30 MPH and 20 miles at 40 MPH. Ask him to arrange a demonstration.

$25 A MONTH, *after usual down-payment, buys any model 1936 Ford V-8 car—from any Ford dealer—anywhere in the U. S. Ask your Ford dealer about the new Universal Credit Company ½% per month Finance Plans.*
