Extension Group Hears Speakers; Meeting Planned

By Mrs. Elva Tolke

MANNING — Extension unit met at the home of Mrs. Lewis Turk last Thursday with 17 members and 4 visitors, Miss Leah Gay, of Long Beach, Cal., Mrs. A. Pruitt of Kansas City, Mo., Mrs. Jess McNiel and Mrs. Gene Trussell attending. A planned dinner was served at noon with Mrs. Emma Milliken and Mrs. Mae Bidwell assisting the hostess. At the business meeting Mrs. Mildred Turk, 4-H and Azalea House chairman, gave her report. Mrs. Oolah Smejkal, legislative chairman, read a paper about writing to State Senator Paul Patterson to support certain bills now before the legislature. Mrs. Tracie Everett, A. C. W. W. chairman read a letter from Miss Avis North of London, chairman of Pen-Friends in England in regard to Pen-Pals in different countries requested by our members. She also read a very interesting letter from her Pen-Pal in Scotland. Mrs. Everett had sent her a pair of nylons for Christmas for which she was very grateful as very few are able to have nylons there. Mrs. Beatrice Crawford, publicity chairman, and Mrs. Helen Skorepa, librarian, also gave reports.

Mrs. Milliken and Mrs. Turk, project leaders, gave a very interesting demonstration and discussion on "Clean As You Go." Mrs. Everett had charge of recreation, games and singing. Mrs. Gene Trussell joined the unit. The next meeting will be March 3 at the home of Mrs. Bruce McCann. The county agent will be present and talk on "Clothing Accessories." A white elephant sale after the demonstration netted over $4 for the Azalea House fund.

Roy Burk and LeRoy, Chris Tolke and Bobby, accompanied by Kenneth Kindell of Verboort attended the annual meeting of the Dairy Co-op in Portland Tuesday of last week.

Plans to be Completed

Final plans for the school dedication program for Friday evening, February 25, will be completed at the meeting of the Mothers-Teachers club, Friday afternoon, February 11. Dr. Edwin Ingles, vice-president of Pacific university and a graduate of Manning school will be guest speaker. Former pupils and teachers are cordially invited as well as the general public.

The Social club meeting scheduled for Saturday evening, February 12, has been postponed until further notice on account of the bad weather and parking conditions around the hall.

Party Set February 11

A valentine party will be held at the school house Friday, February 11, at 1 p. m. Everyone invited. Cake and jello will be served.

Miss Leah Gay left last Friday for her home in Long Beach, Cal., after visiting her friend, Mrs. Fred Pruitt, near Tophill.

LeRoy Burk is able to attend school half a day since he returned from the Shriner hospital. He wears a brace part-time on his left arm instead of his left leg as reported in last week's paper.

Mrs. Riggle Injured

Mrs. Delmar Riggle slipped on the icy highway near her home at Tophill Thursday morning, spraining her ankle. She was on her way to her neighbor's, Mrs. Ed Everett, to make plans to attend Extension unit meeting later in the day at Manning. She was unable to make her family hear when she called for help, Rev. Oscar Lohr happened along later and help was summoned and she was assisted to her home.

High Winds Bother

Blizzard weather struck here Saturday night, with high winds and snow. Half of the large limbs in a tree in Chris Tolke's front yard, near the road were broken off. One day last week, the machine shed on the Corbett Crowthers farm, near the barn, collapsed, burying his machinery underneath. Monday morning over 15 inches of snow covered the ground. Four inches fell Sunday night.

Extension Leader Speaker Tuesday

(Continued from page 1)

terment of the state's economy.

Dr. Ballard held that it was a good thing for farmers and business men to get together and talk over their mutual problems. He said the problems in Oregon were basically the same because we are dependent and will be in our time on basic industries such as agriculture, forests, fisheries and mines, accounting for 50 per cent of the state income. The prosperity of our towns and cities, he said, comes for the most part from these basic industries.

The most important thing for us to consider, it was pointed out, is land utilization. Of the 61 million acres in Oregon, 31.7 per cent is owned by the federal government. Twenty million acres are in farms, of which five million acres, the equivalent of Lake county, are in crop production. There are 63,000 farm families and total investment is estimated at $850,000,000. Land that will come into production is not expected to increase the acreage very much but production can be greatly increased through improved management and methods, the speaker held.

Dr. Ballard pointed out that dairying had changed since 1920 from an importing basis to one of surplus, resulting in an investigation of outside outlets in California in 1923. The number of cows increased 42 per cent to 1945 through the securing of new markets and at the same time production was upped 80 per cent. Average production per cow in 1920 was 168 pounds as compared with 266 in 1945. The average butterfat production per cow in dairy herd improvement associations is now 360 pounds, it was pointed out. By 1920 tuberculosis was virtually eliminated, and now artificial insemination has been started and dairymen tax themselves for the promotion of dairy products consumption.

President L. C. Kramien of the local chamber and Ray Vanderzanden, president of the Sunset chamber of commerce, reported briefly on the meeting of chambers of commerce presidents and secretaries in Portland Monday. Kramien announced a meeting of committee chairmen with the planning commission Wednesday night to consider parking, zoning and roads. Dick Guillory, Hilhi student body president, reported on student activities.

Palmer Torvend, county agent, introduced Dr. Ballard.

Favorite Fireman Is Canine Brownie

(Continued from page 1)

one in the upstairs unless it's a fireman, Dillon said. Brownie may not be one of the pioneers of Washington county, nor can he boast of any family tree, but after two and a half years with the fire department he knows all the fire hydrants in town. His services have been friendly, faithful and vigilant.

Brownie Gets Award

Brownie's friendly, faithful and vigilant service was not forgotten when Christmas time rolled around. The firemen rewarded him with a rubber pig which Brownie keeps on top of one of the trucks. It is a little the worse for wear by now but still squeaks when the pooch squeezes it.

Brownie is always ready to go for a ride. When one of the station doors go up he is immediately on top of the truck eager to start. It is rather hard on Brownie when two of the doors open at once, Harold Goff declared. He has a terrible time deciding on which truck he wants to ride.

Brownie is now patiently awaiting the completion of the new fire hall. He is always ready for something new and is eager to move into the new quarters.

Chamber Slates Tour of Brewery

A Hillsboro chamber of commerce touring party will leave the local high school parking area at 7 p. m. today (Thursday) for a visit at the Interstate Brewery in Vancouver, Wash.

All chamber members and friends have been invited to make the trip. The program includes inspection of the plant, lunch, samples of the product and dancing later in the evening. Those wishing to make the tour should be at the parking area before the starting time, it was announced.

A representative of the Valley Beverage company of Hillsboro will be on hand to direct the tour. In charge of arrangements is the tourist committee of the chamber which includes Grant Johnson, Kenneth McGrath, Ray Casey, R. W. Chapman, Jack Meier and Neal Davison.

Services Held for Albert E. Alexander

Funeral services were held Saturday at the Chapel of the Forest Grove Undertaking company for Albert E. Alexander of Forest Grove, who died February 2. He was buried at Forest View cemetery.

Surviving him are his wife, Elizabeth A. Alexander, Forest Grove; a son, J. Edward Alexander, Forest Grove; a daughter, Mrs. Jean Elizabeth Hatfield, Hillsboro; and five grandchildren.

Roof Blaze Calls Rural Fire Truck

By Mrs. J. W. Kurtz

CHERRY GROVE — The Gaston Rural Fire truck was called again to Cherry Grove Saturday evening. This time it proved to be only a chimney fire and no disastrous trouble followed. The fire was at the Haskew home formerly owned by the Folsom family.

Birthday Celebrated

Jacqueline (Jackie) Jeppesen celebrated her eleventh birthday anniversary Saturday afternoon when 12 of her classmates came to her home. Lively games had been arranged and the children gathered around the piano for a session of singing. Mrs. Jepesen served refreshments.

Mrs. Arling Tornblade, (Ruth Anderson) of Merrill, near Klamath Falls, was in Portland January 29 having her eyes checked and new glasses. She came out to Forest Grove for a little visit with her husband's parents, Mr. and Mrs. C. A. Tornblade. Mrs. Tornblade teaches in the Merrill school. Arling Tornblade's health is much improved since he lives in the higher altitude. Their three children are all in school.

Visitors View Weather

Friends of Mr. and Mrs. R. Stevens, who came from Montana, think they have gotten into some real winter weather. People tell them this is very unusual but they begin to doubt it. They have been in California and even found winter weather there.

The school children will have their Valentine party at the school Friday afternoon.

Mrs. C. D. Elbe of McMinnville came Friday evening to spend until Saturday evening with her daughter and family, Mr. and Mrs. Lionel Hurrelbrink and David.

First Meeting Held

The Red Rose Cooking club (first year 4-H cooking) had their last meeting Tuesday after school at their leader's home. They finished filling in their books and have all the cooking that is required done. Mrs. Vernon Strong, leader, served jello and cake at the close of the meeting. Constance Ann Meyer, news reporter, said they have had good times as well as doing their club work.

Work on the new unit of the Cherry Grove school has been at a standstill since before Christmas.
