"IT'S OUR PLEASURE TO SERVE YOU"

Learn how science helps to make the face younger

The skin of your face and throat! Is it ageing, losing its beauty? If so, try scientific ENDOCREME. For most women, ENDOCREME . . . with its 7-year record of success . . . gets results hitherto thought impossible. For it improves the skin itself, not merely its superficial appearance. Only ENDOCREME contains ACTIVOL**. This ACTIVOL** is a scientific counterpart of a natural, skin-vitalizing substance . . . a substance that diminishes with advancing age. When you apply ENDOCREME it is absorbed under the skin's surface to compensate for this loss, to firm tissues and rebuild cells. Thus the skin tends to become fresher, firmer, smoother, more youthfully beautiful again. Isn't this the best way you can invest your cosmetic dollars? Many report truly exceptional results in only 30 days.
