TELEGRAPHIC NEWS

R R Officials.

Salem, Or., Sept. 6.—Manager Koehler, of the Southern Pacific, came up on a special train to-day and took a hack for Maclay, where he met Receiver Scott and other officials of the narrow guage, and it is reported that the Southern Pacific took control of the narrow guage lines and that such was the purpose of the meeting.

Negro Troubles.

Atlanta, Ga., Sept. 6.—Wednesday night negro boy was lynched for rape at East Point, near here.

The negroes held a mass meeting last night to discuss the matter, and the whites, becoming scared, sent for the Atlanta police, No trouble ensued, but after the officers returned to the city a number of white men, whose indentity, it is said, is unknown, went to different cabins and severly whiped fourteen negroes.

Deadly Lightning.

Macon, Ga., Sept. 6.—There was a remarkable display of electric force in Southwest Georgia this morning near Albany. H. H. Rouse, John Shivers and J. W. Shisor were instantly killed. They were on their way to market with cotton, and sought refuge from the shower under a tree.

An Awful Disaster.

Antwerp, Sept. 6.—Dynamite exploded to day in a cartrige factory in the vaciulty of the bourse, killing many persons and doing much damage to property. Portions of the bourse were struck by burning fragments and set on fire, causing a panic in the building, which was crowded.

The latest estimate is that there are 300 killed and 1000 wounded.

A Peculiar Accident.

Seattle, W. T., Sept. 6—John Nelson a telephone lineman, was climbing poles this afternoon, with a wire in his hand, and when about twentyfive feet from the ground the line became caossed with an electric power wire, Nelson received a current which burned his first finger nearly off, which threw him shrieking to the ground.

For Governor, E P Ferry, of King.
For Lieutenant Governor, C E Langton, of Okanogan.
For Secretary of State, Allen Weir, of Jefferson.

For Auditor, J M Reed, of Thurston.
For Attorney General, W C Jones, of Spokane.
For Superindent of Public Instruction, R B Bryan, of Chehalis.

For supreme judges,—R O Dunbar, of Klickitat, Theodore L Stiles, of Pierce, John P Hoyt, of King, T J Anders, of Walla Walla, Elmore Scott, of Garfield.

Talks Too Much.

WASHINGTON, Sept, 5.—The opinion here seems to be quite general that Corporal Tanner will have to retire from the pension office. His most unpardonable sin, it is said, is his talkativeness, and for this, it is believed, he will have to go.

The thing, it is said, that the administration has to complain of is that he talks too much and is without sufficient discretion, and is controlled by sentiment and impulse rather than by calm reason.

Attempted Jail Break.

SEATTLE, Sept. 5.—A desperate attempt was made to murder Day Jailer Patrick Farrahher this morning, at 8:15, by the prisoners in the county jail, The jailer was attacked and severely wounded with a razor in the hands of one of the prisoners, and was also kicked and pummeled by others,

Three of the prisoners, Barney Martin, James Davis and Charles Clark, got outside the jail grounds, Davis was shot while getting over the fence, and the three prisoners were captured a few minutes after they had escaped.

The affair caused the wildest excitement, and there was danger at one time that the incensed citizens might lynch the desperadoes, but cool counsel prevailed.

Most Daring on Record.

LINKVILLE, Or., Sept. 4.—Last night about 12 o'clock the driver of the north bound stage on the Ayer Linkville line was startled by the familiar command of "Halt!" coming from the bushes by the wayside. He had often declared that no "d—d robber" could hold him up, but he held his hands up as high as he could.

After robbing the express box of $100, and the single passenger of $50, the robber climbed on the hind boot of the stage and ordered the driver to go ahead. Soon the rattle of the south bound stage could be heard; the robber commanded a halt, and ordering the driver to stay where he was, slipped away in the bushes.

The driver listened; the command "Halt!" was borne to his ears, the wheels stopped, and then he heard blows of the ax on the express box. The south bound stage was presumably robbed in the same manner as the north bound.

A Great Scheme.

SAN FRANCISCO, Sept. 4.—An ice skating rink is soon to be built on Eighth and Market streets, this city. The building is to be 90 by 275 feet, and in this will be a smooth floor of ice, 70 by 225 feet. The ice is made as in an ordinary ice machine, by evaporization of liquid ammonia on a water tight floor having raised edges. A series of iron pipes will be laid, the floor will be flooded with water, to the depth of several inches, liquid ammonia will be forced into the pipes, and the vaporizing will cause such intense cold that the whole body of water will be frozen solid.

Only a portion of the passengers were aware of the accident till near 4 o'clock, when the boats were lowered and orders given to take the ladies ashore. The Business Part in Ashes—Loss $200,000.

Special to DEMOCRAT:

LINKVILLE, Or., Sept. 6th, 1889.—About 3 o'clock this morning fire was discovered in rear of Forbes' saloon, this city. Flames spread rapidly until almost entire business portion of town was destroyed, together with number of dwellings. Burned district extends from Linkville bridge to U. S. Signal office, one side of which burned out. Principal business houses burned are: Linkville and St. Charles Hotels, Reams, Martin & Co., Baldwin & Forbes, G W Smith, Ralph Roberts, Egut & Redfield, merchants; Wright's and Kessler's drug stores; Forbes & Hatton's saloon; Klamath Star building; Parker & Cranston, lawyers, J W Hammackar, lawyer; Seamen's barber shop and R T Baldwin's harness shop. Estimated loss is $200,000. It is settled beyond doubt that fire is work of incendiaries.

A FOUNDRY BURNED.

Sept. 6 about 10:30 o'clock the Oregon Pacific's foundry at Yaquina City was discovered on fire, probably catching from a big heat on in the moulding room during the afternoon and evening. The bucket brigade was promptly on hand and by hard work succeeded in saving the machine shops and adjoining buildings. Great assistance was rendered though by the very fortunate absence of wind. The foundry, though, was entirely burned, entailing a loss to the R. R. Co. of $10,000 or $15,000. The fire caused considerable excitement, and at times it looked as if there would be a general sweep of things. The foundry was a detached building and had already proved too small for the work and the management at this time had begun preparations for a new and enlarged foundry building. The cleaning of the foundations of the new building has already been begun. The cupola, coke oven &c. were not damaged.

WHAT HE SAW.

A Burlington, Wis., man was in Albany last winter while on his way from Portland to Ashland, and now, writes to Secretary Blain, of the B. of T. from his home for further particulars, indicating a small fever. A few extracts will give an idea of how a person, jumping through a country can be impressed with it. He says:

I was favorably impressed with what I saw. I saw mud and water standing in your streets and gutters, and the roads leading out into the country were quite muddy, caused by the rainfall you had about that time, which added nothing to the looks of things there; but served to assure me that you do have more rain than in California or Southern Oregon. Either there is little or no gravel there to improve the roads with or they are not so thoroughly worked as they should be. There were two things especially that impressed me favorably with Albany. One was the competition you now have for shipping by railroads and steamboats and not being confined to the S P R R, as are Eugene and Ashland. The other was the magnificent expanse of fertile land stretching off in a long way from Albany in each direction. After having passed through Washington Territory, Oregon and California. I must say that I regard the Willamette River Valley the very best large tract of arable land I saw, and Albany is surrounded by what seemed to me the best of the Valley. I called at the mill at the end of the business street, and saw some as plump and white wheat as my eyes ever beheld, and the miller assured me it was nothing unusual.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

That Cantankerous Old Woman

Described in the nursery ballad, who "lived upon nothing but victuals and drink," and yet "would never be quiet," was undoubtedly troubled with chronic indigestion. Her victuals, like those of many other elderly persons whose digestive powers have become impaired didn't agree with her. This was before the era of Hostetter's Stomach Bitters, or some one of her numerous friends and relatives would undoubtedly have persuaded her to try the great specific for dyspepsia, constipation and biliousness. This would have been a measure of self protection on their part, for she would soon have been cured and ceased to disturb them with her clamor. The most obstinate cases of indigestion, with its attendant heartburn flatulence, constant uneasiness of the stomach and of the nerves, are complete by overcome by this sovereign remedy. Chills and fever and bilious remittent rheumatism and kidney troubles are also relieved by it.
