His Life Was Saved.

Mr. I E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief; I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung troubles. Regular sizes 50c and $1. Trial bottle free at Tallman & Co.'s drug store. Every bottle guaranteeed.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

Boston Wool Market.

Boston, Oct. 25.—The sales of wool here this week are considerably above those of previous weeks, but these have only been for immediate use. JOKED A YOUNG MARRIED COUPLE.

Distributed Cards on Train to Passen- to Present to Them.

They had lots of fun in Sherman county a few days ago over a young couple that got married at Wasco, says The Dalles Chronicle. The bridegroom was from Halsey, and after the marriage at 9 a. m., the young couple boarded the next train for their home in the Willamette valley. When they arrived at Wasco station they found their trunks labeled, "Handle with care. The contents are wedding presents. For further particulars inquire of the hotel clerk or train conductor."

To add to the gaiety of the affair type-written cards in red ink were distributed broadcast among the passengers which said: "Present this card to the conductor and he will introduce you to the bride and bridegroom, Mr. and Mrs. McWilliams." It is said the most active distributors of the cards were "Dutch" McCoy and George Crossfield.

Beauty, Comfort, Safety.

Not only does the Lackawanna railroad offer one of the most beautiful journeys in the United States, between Chicago and New York, but it gives it with a greater degree of comfort than may be found on any other railroad. Its locomotives are all fitted with appliances for burning anthracite coal, and from journey's beginning to journey's end neither smoke nor cinders molest the traveler. Built as it is among the mountains it is ballasted with stone from which there is no dust. Railroad experts who have traversed it concede its road-bed to be second to none in the world, and however long the journey, the traveler will feel neither jar nor jolt. Its ordinary coaches are built by the company, and they are noted for their comfort and for their conveniences. The best equipment of the great sleeping car companies may be found upon all through trains. The dining car service is up to the standard maintained on the best Amerian railroads. Being double-tracked for its entire length the danger of ordinary accidents is entirely eliminated, and the careful watchfulness constantly exercised by hundreds of employees make even an extraordinary accident almost an impossibility.

Finances of Sumpter.

The city of Sumpter has just negotiated a loan of $2000 through Robert E. Strahorn by which it issues one big warrant for that amount, says the Democrat, and takes up practically all the other outstanding warrants. Since the first of the month $2200 in warrants have been paid from the license revenues for this quarter, and the proceeds of September fines. The past year has been an expensive one for Sumpter, the salary roll aggregating $3500, lighting $1400, water $936, surveying $800, street crossings $1525, and the expenses of quarantining about $1500, or a total of over $9600, and not one cent of tax has been levied, but all this will be met by license fees and the fines levied in Recorder Manning's court. The city now owes only about $200, and has permanent property which could legitimately be listed as assets to a total of over $6000.

A Social and Supper.

The Pioneers of the Pacific held their regular meeting in LaDow hall last evening, after which came the monthly social, followed by supper in the banquet hall. Almost since the organization of William Martin Encampment it has been customary for that society to have a social at least one Wednesday evening of the month. Last evening's affair was very enjoyable. The supper arrangements were in charge of Mrs. D. Turner, chairman of the social committee, and they were carefully attended to.

Dogs and Ponies.

The love of animals is deeply planted in the heart of every rightly constituted human being, and when to nature scientific training has been added, the interest in the trained intelligence of the patient, obedient and lovable mutes, is many times multiplied, and our sympathy with and affection for them correspondingly increased. Prof. Barnes' superior trained dogs and ponies at Pendleton, Tuesday, October 30.

SOLID AS A ROCK.

Montie B. Gwinn Gives His Opinion of Certain Things.

Among the recent visitors in Pendleton was Montie B. Gwinn, of Boise, Idaho, manager for Idaho, Washington and Oregon of the New York Life Insurance company. He is secretary of the Idaho Woolgrowers' Association and a director in the First National bank of Caldwell. Mr. Gwinn is a type of an ideal business man. He is progressive, yet cautious. Aside from is verbally expressed opinion of Pendleton and Umatilla county, he has otherwise spoken regarding the solidity of the resources of this section by deciding to establish a branch office of the New York Life Insurance company here, of which his brother, James H. Gwinn, will have charge. The office will be in the Judd building. Mr. Gwinn's personal standing, as well as the character of his company, are equivalent to a bond to those desiring the best insurance. There is no uncertainty in payment of a claim against the New York Life.

As to Prescriptions

when physicians recommend you to have them compounded by us, what does that mean? Simply the certainty on their part that you will get exactly what is prescribed—the right quantity and the right quality, which is even more important. But we go further than that, for we take honest pride in our skill in compounding.
