RIOTING IN DETROIT.

Fight Between Poles and Officers at Detroit.

Two Killed and Many Injured.

DETROIT, Mich., April 18.—The trouble between the water board and Polish laborers, who had refused to do piece work, was renewed today. A mob of 700 assembled just outside of the city limits, and when a small gang appeared they drove them away. The police force was insufficient to quell the disturbance, and with the laborers were driven from the scene. No further attempt will be made to resume operations until a full meeting of the board can be had.

The trouble between the Polish strikers and the city water commissioners has culminated in riot, bloodshed and death. Shortly after noon the crowd of Poles was so threatening that Engineer Williams attempted to withdraw his men peacably. The men suddenly rushed upon Foreman Joe Catheway and assaulted him with picks. Sheriff Collins stood addressing a section of the mob, while Deputy Sheyslade addressed another section. Suddenly there was a rush with uplifted picks and shovels, and a second later revolvers began popping. Everything was in wildest confusion. About 15 men were laying pipe, and the crowd rushed upon them. They left the trench, fleeing for their lives. Sheriff Collins emptied his revolver at the advancing rioters, and six deputies present followed suit. The dead are: Unknown Pole, Karnotski. The injured: Sheriff Collins, cut in the head, right leg and a number of severe body bruises; Geo. Cathery, many cuts and bruises; an unknown Polander, shot in the back; Quadrupski, shot in the breast; Laurez Kaulwiski, shot in the hip; Tony Gerkewaski, shot in the thigh, Turnkey Streyskal, W. E. Frix, Andrew Bersig and John R. Fisher, an Evening News reporter. A score of physicians are on the scene attending the injured.

A Hotel Burned.

BANGOR, Me., April 18.—Fire today gutted the Merchant's house. The house is filled with guests, and many jumped from the windows. Several were severely injured.

DISASTROUS FIRE.

SACRAMENTO, Cal. April 18.—The entire electric plant of the Capitol Gas Company, which holds the contract for lighting the city and running the street cars, burned about 8 o'clock this morning. Twenty-four dynamos were burned and half a dozen of the most powerful engines on the coast were practically destroyed. The plant was one of the finest on the coast and contained the finest modern machinery. The origin of the fire was the coming in contact of electric wires at the switchboard. The total loss, which will be sustained by the Capitol Gas Company, amounts to $300,000. Unless the car company can make arrangements to secure horses to operate the extensive lines, the people here will be entirely without street car accommodations. The gas generating system is not disturbed by the fire.

Caused by a Drunken Man.

LOS ANGELES, Cal., April 18.—The mystery of the explosion which ruined three buildings Monday night is solved. Grabbervoski, the jeweler in whose shop the explosion occurred, was intoxicated and left the gas escaping and closed the store, leaving a lighted oil lamp on the floor. When the room filled and the gas reached the lamp the disaster occurred.

MRS. GEORGE H. WILLIAMS IS DEAD.

This Noted Woman Passed Away Yesterday.

Wednesday's Portland Telegram: Death entered the beautiful home of Ex-United States Attorney-General George H. Williams, on Eighteenth and Couch streets, at 10 o'clock this morning, when his wife, Mrs. Kate Ann Williams, passed to eternal rest.

Deceased was united in marriage to Judge Williams about 26 years ago. They were both residents of Portland at that time. After Judge Williams was elected United States senator she removed to Washington, where she lived for 10 years or more. About 1880 Mr. and Mrs. Williams returned to Portland, and have since made this city their permanent home.

Mrs. Williams had been a very intellectual lady, who, prior to coming to this city, where she had resided many years, had been very prominent in society in Washington City and New York. While her husband was attorney-general in the cabinet of President Grant the deceased lady's great personal magnetism and intellectual power attracted the most notable and accomplished society of the nation's capital to her drawing-rooms.

About four years ago Mrs. Williams, whose study of Holy Writ had been very profound, became converted to a religious belief essentially original, and soon after she gave publicity to her theories she gained a large following, among which were many quite intelligent people. She withdrew from fashionable society, and devoted her entire time and energies to works of charity, to the reading of the Scriptures, to the dissemination of the faith she so earnestly espoused, to prayer, to meditation, to prophesying and to exhortation.

For a year past Mrs. Williams' health has been gradually declining. Some months ago she passed through a protracted fast, extending over a period of 110 days. During all this time she claimed to have taken but very little nourishment, and then only at long intervals. No religious meetings have been held at the family residence for some weeks, as Mrs. Williams' physical condition precluded her from active participation or attendance.

For the past three weeks or more Mrs. Williams has been unable to leave her bed and has constantly grown weaker, so that her death came not unexpectedly.

Deceased was born in Sheparditown, Va., October 4, 1832, and was aged 61 years, 6 months and 14 days. The funeral will take place tomorrow afternoon from the family residence, at 2 o'clock. Rev. Mr. McEwan, rector of St. Mark's Episcopal church, will conduct the funeral services. The interment will take place in Riverview cemetery.

It is hoped that Villard Hall will be well filled the evening of his address.

Miss Bessie Fetterly, made her parents a short visit Sunday.

The road supervisor has been out locating the mud holes in the roads between here and Eugene. "Sunshine" has made such an improvement upon them. He says they are passable, and expects to travel them again soon.

Mr. Jerome Fetterly, who has been a resident of Wolf creek for the past year, came home last Thursday. He expects to return soon with his family.

What Causes Pimples?

Clogging of the pores or mouths of the sebaceous glands with sebum or oily matter.

The plug of sebum in the centre of the pimple is called a blackhead, grub, or comedone.

Nature will not allow the clogging of the pores to continue long, hence,

Inflammation, pain, swelling and redness, later pus or matter forms, breaks or is opened, the plug comes out and the pore is once more free.

There are thousands of these pores in the face alone, any one of which is liable to become clogged by neglect or disease.

What Cures Pimples?

The only reliable preventive and cure, when not due to a constitutional humor, is

Cuticura Soap.

It contains a mild proportion of CUTICURA, the great Skin Cure, which enables it to dissolve the sebaceous or oily matter as it forms at the mouths of the pores.

It stimulates the sluggish glands and tubes to healthy activity, reduces inflammation, soothes and heals irritated and roughened surfaces and restores the skin to its original purity.

This is the secret of its wonderful success.

For bad complexions, red, rough hands and shapeless nails, dry, thin and falling hair, scaly and irritated scalps and simple baby blemishes it is wonderful.

It is preserving, purifying and beautifying to a degree hitherto unknown among remedies for the skin and complexion.

Sale greater than the combined sales of all other skin and complexion soaps.

Sold throughout the world.
